

## INTRODUCTION

1. This booklet presents summary tables on number of offices, employees, deposits and credit of scheduled commercial banks at all-India and State level, collected through Basic Statistical Returns (BSR) - 1 & 2 from the bank offices, as on 31st March 1999.

2. The BSR-1 & 2 returns have been revised with effect from March 1999 Survey in line with policy changes and developments in the banking sector. The significant features of the revision are:

- (i) the cut-off credit limit for classifying borrowing accounts of scheduled commercial banks under '*small borrowing accounts*' is raised to Rs.2 lakh from Rs.25,000 earlier;
- (ii) minimum maturity period of term deposits is reduced to 15 days from 30 days; and
- (iii) rate of interest of borrowing accounts is presented exclusive of interest tax.

As a result of these changes, the data presented in some of the tables in this booklet are not comparable with those of the previous years.

3. BSR-1 relates to bank credit and comprises term loans, cash credits, overdrafts, bills purchased and discounted, bills re-discounted under the New Bill Market Scheme as also dues from banks. The return is divided into two parts - Part A and Part B (BSR-1A and BSR-1B). Till 1998, the BSR-1A return covered accounts with individual credit limit of over Rs. 25,000. Consequent upon the revision in the cut-off credit limit from March 1999 survey, BSR-1A return for banks other than regional rural banks covers accounts with individual credit limit of over Rs. 2 lakh. In the case of regional rural banks, the cut-off credit limit remains the same at Rs. 25,000

as in the previous year. In BSR-1A, information in respect of each of the borrowing accounts is collected on various characteristics, such as place (district and population group) of utilisation of credit, type of account, type of organisation, occupational category, nature of borrowing account, rate of interest, credit limit and amount outstanding. In BSR-1B, information in respect of accounts with individual credit limit upto Rs. 2 lakh (Rs. 25,000 for regional rural banks) is obtained in consolidated form for broad occupational categories. The information on small borrowing accounts are obtained from BSR-1B returns of scheduled commercial banks (including regional rural banks) together with the accounts having credit limit above Rs. 25,000 and upto Rs. 2 lakh in BSR-1A returns of regional rural banks.

4. In BSR-2, each bank office submits information on deposits with their break-up into current, savings and term deposits. Information on deposit accounts of *females* is also given separately. Information of term deposits according to different maturity periods is also furnished in this return. In addition, BSR-2 also provides information on staff strength, classified according to gender and category (i.e. supervisory, clerical and subordinates), in individual bank offices as on the reference date of the survey. Deposits exclude inter-bank deposits. Current deposits comprise (i) deposits subject to withdrawal on demand (other than savings deposits) or on notice of less than 15 days, or term deposits with a maturity period of less than 15 days; (ii) call deposits withdrawable not later than 14 days; (iii) unclaimed deposits; (iv) overdue fixed deposits; (v) credit balance in cash credit and overdraft accounts and (vi) contingency unadjusted account if in the nature of deposits. Savings deposits are deposits accepted by banks under their savings bank deposit rules. Term deposits are deposits with a

fixed maturity of not less than 15 days or subject to notice of not less than 15 days. These would also include (i) deposits payable after 14 days notice; (ii) cash certificates; (iii) cumulative or recurring deposits; (iv) Kuri & Chit deposits and (v) special deposits in the nature of term deposits. The term deposits presented in this booklet except in Table 1.1 exclude the proceeds of Resurgent India Bonds (RIBs). In BSR-2, bank branches also give classification of term deposits according to broad interest rate ranges. A table giving percentage distribution of term deposits according to interest rate range is presented in the booklet, based on this data.

5. Out of the 66,677 offices of scheduled commercial banks functioning as on the last day of March 1999, BSR-1 returns were received from 61,168 offices. BSR-2 returns were received from 61,553 offices. In the case of non-reporting offices the data have been estimated based on the previous round of the survey and from the available information in the Quarterly Return on Aggregate Deposits and Gross Bank Credit (BSR-7) as on 31st March 1999.

6. BSR-1A return provides for identification of the district and population group of the place where the credit is utilised. However, in BSR-1B return, such information is not being collected; it is presumed that in respect of these accounts the credit is utilised in the same place where it has been sanctioned. State and population group-wise data on credit are presented both according to place of sanction and place of utilisation of credit. When presented with deposits (Tables 1.3, 1.4 and 1.5), credit is as per place of sanction and when presented separately (Tables 1.10 and 1.11), it is based on place of utilisation. Tables 1.6 to 1.8 give the information on credit according to both the place of sanction and the place of utilisation so as to facilitate comparison.

7. Brief explanatory notes on some of the tables presented in this booklet are given below:

Table 1.1 in this booklet presents the progress of commercial banking at a glance, based on data collected from different sources as per details given in the '*Notes on Tables*'. Table 1.9 presents classification of outstanding credit according to detailed occupations. Table 1.17 gives population group and occupation-wise classification of small borrowing accounts each with credit limit of Rs.2 lakh and less. Table 1.16 gives percentage distribution of small borrowing accounts according to broad category of borrowers and gender-wise classification. Tables 1.13, 1.14 and 1.15 provide truncated distributions of outstanding credit of scheduled commercial banks according to interest rate range, type of account and organisation respectively, for accounts having individual credit limit above Rupees two lakh. Tables 1.21 to 1.23 give the information on deposits of scheduled commercial banks according to broad ownership category. Tables 1.24 to 1.26 give maturity pattern of term deposits according to broad ownership category, population group and bank group, respectively. Table 1.27 gives interest rate range-wise distribution of term deposits.

8. Population groups of the banked centres presented in this booklet are based on the 1991 census. The population groups are defined as under:

- i) 'Rural' group includes all centres with population of less than 10,000.
- ii) 'Semi-urban' group includes centres with population of 10,000 and above but less than 1 lakh.
- iii) 'Urban' group includes centres with population of 1 lakh and above but less than 10 lakhs.

- iv) 'Metropolitan' group includes centres with population of 10 lakhs and more.
9. Banks have been grouped as under:
- i) State Bank of India and its Associates
  - ii) Nationalised banks
  - iii) Foreign banks
  - iv) Regional rural banks
  - v) Other scheduled commercial banks.
10. The totals given in the tables may not exactly tally with the sum of the constituent items on account of rounding off of the figures. The unit lakh is equal to 1,00,000. Throughout this booklet, the symbol ' - ' indicates nil or negligible. Figures in brackets indicate percentage to totals. Notes on tables as appropriate to each table are given at the end.
11. This booklet is prepared in the Banking Statistics Division of the Department of Statistical Analysis and Computer Services.

## NOTES ON TABLES

### Table No. 1.1

Classification of bank offices according to population groups for the year 1969 is based on 1961 census. For the period 1991 to 1994 it is based on 1981 census and for the subsequent years i.e. 1995 to 1999 it is based on 1991 census. As such, the population group-wise classification of bank offices is not strictly comparable for all the years. The number of bank offices excludes the administrative offices.

Population per office and per capita deposits and credit are based on projected estimate of population supplied by the office of the Registrar General, Government of India.

Deposits and credit of Scheduled Commercial Banks in India are as per returns under Section 42(2) of the Reserve Bank of India Act, 1934 and relate to the last reporting Friday of the reference period. Deposits are net of inter-bank deposits and credit is exclusive of dues from banks and bills rediscounted under the New Bill Market Scheme. Aggregate deposits for the year 1999 include the proceeds of Resurgent India Bonds amounting to Rs.17,945 crore. The figures of aggregate deposits are revised from 1996 onwards after excluding banks' pension and provident funds amounting to Rs.4816 crore in 1996, Rs.5836 crore in 1997, Rs.6925 crore in 1998 and Rs.8178 crore in 1999. The ratios based on aggregate deposits presented in this table for the years 1996 to 1998 are also revised and therefore may not tally with those published in the previous Volumes. For calculating ratio of bank deposits to National Income, deposits relating to March have been considered. This ratio for the years 1994 to 1999 is based on the new series of National Income with 1993-94 as the base year. For the years 1991 to 1993, it is based on 1980-81 base and for 1969, the base year is 1970-71.

Advances to Priority Sector consist of the advances to (1) agriculture, (2) small-scale industry including loans for setting up industrial estates, (3) small road and water transport operators, (4) small business, (5) professional and self-employed persons, (6) retail trade, (7) state sponsored organisations for scheduled castes/scheduled tribes, (8) education, (9) housing, (10) Self Help Groups (SHGs) / Non-Governmental Organisations (NGOs), (11) consumption loans granted under the consumption credit scheme, (12) net funds provided to sponsored Regional Rural Banks, (13) advances to software industry units having credit limit upto Rs.1 crore, (14) advances to food and agro-based processing sector which do not satisfy Small Scale Industry norms and (15) investment in venture capitals. With effect from July 1993 the Priority Sector Advances in respect of Foreign Banks operating in India include export credit provided by them. Scheduled Commercial Banks' advances to Priority Sectors and the related ratios are exclusive of Regional Rural Banks. Due to change in the definition of the Priority Sector at different times, the data are not strictly comparable for the entire time period.

Investments for the purpose of calculation of Investment-Deposit ratio pertain to investments in Government and Other Approved Securities.

For working out Cash-Deposit ratio, Cash is taken to construe cash in hand and balances with Reserve Bank of India.

### Table No. 1.2

Figures relate to the banked centres served by scheduled commercial banks only. Classification of Population Groups is based on 1991 census.

### Table Nos. 1.13 to 1.15

Data for outstanding credit of Scheduled Commercial Banks in these tables relate to accounts, each with credit limit of over Rs.2 lakh.

### Table Nos. 1.16 and 1.17

Data relate to accounts with credit limits of Rs. 2 lakh and less. Data on gender-wise classification of outstanding credit of small borrowing accounts in Table No. 1.16 is compiled on the basis of data reported by 54,780 branches under BSR-1B returns.

### Table Nos. 1.21 to 1.24

For table Nos. 1.21 to 1.24, 'Individuals' include Hindu Undivided Families. In case of joint accounts under Individuals, the gender of the first account holder is considered for classifying the account under Male / Female category. The category 'Others' includes Government Sector, Corporate Sector (Non-Financial & Financial excluding Banks) and Other Institutions.

### Table No. 1.27

Data on interest rate range-wise distribution of term deposits have not been uniformly reported by all the branches which have submitted BSR-2 returns. This table is compiled on the basis of data reported by 56,115 branches.
