BASIC STATISTICAL RETURNS-1 AND 2 OF SCHEDULED COMMERCIAL BANKS IN INDIA

INTRODUCTION

This Volume, thirty eighth in the series, presents comprehensive data on deposits and credit of scheduled commercial banks and the information on number of employees of these banks, as on 31st March 2009. The data are collected through the annual statistical surveys, Basic Statistical Returns (BSR) -1 & 2, from the offices of scheduled commercial banks in India including Regional Rural Banks. The earlier title of the publication, i.e. '*Banking Statistics*' has been changed to 'Basic Statistical Returns of Scheduled Commercial Banks in India' from Volume 29 issue relating to March 2000. This has been done with a view to highlight the source and the nature of the data published in the Volume and also to indicate the basic distinction between the banking statistics presented in another publication of the Bank, viz., '*Statistical Tables Relating to Banks in India*', which is based on data collected through various statutory returns and other statistical returns. Information on other publications of the Bank on Banking Statistics is given in the **Appendix**.

2. BSR-1 has been revised with effect from March 2008 Survey in line with policy changes, developments in the banking sector and also with a view to have uniform coding system for occupation/ activity classification as per the National Industrial Classification (NIC), 2004 . The significant features of the revision are:

a. The Kisan Credit Cards, General Credit Cards and Other Credit Cards have been included as the Type of Accounts along with the existing Personal Credit Cards.

- b. The Organisation codes of the borrower have been restructured. Financial and Non- Financial organisations have been separately defined under Public, Private and Cooperative Sectors. Separate codes have been included for Self Help Groups (SHGs)/Micro-Finance Institutions (MFIs).
- c. The Occupation/ Activity codes have been reorganised. 'Personal Loans' has been divided into two separate groups; Staff Loans and Other than Staff Loans. Repair and maintenance services have been grouped in separate division.
- d. The Indirect Finance to Agriculture has been re-structured as per the latest RPCD circulars Nos. RPCD.Plan.BC.84/04.09.01/2006-07 dated 30-04-2007 and RPCD.Plan.BC.42/04.09.01/2007-08 dated 12-12-2007. New codes have been introduced to capture data on Indirect Finance to Housing and Small Enterprises sectors. New occupations have been included for diversified activities of SHGs/ MFIs.
- e. Loans to RRBs have been grouped separately for on-lending to agriculture and allied activities and for other purposes.
- f. Classification of loans to Non-Banking Financial Companies (NBFCs) have been done based upon on-lending to agriculture and allied activities, small and micro enterprises, housing sector, educational purposes and other general purposes.

- g. A new 'Category of Borrowers', based on the size of the borrowing unit has been introduced in place of 'Nature of Borrowal Account'.
- h. A new parameter 'Security pledged/ Guarantee Status for loans' has been introduced to capture the secured/ unsecured loans.
- i. A flag to capture 'Fixed / Floating rate of interest on loans' has also been included.

BSR-1 Part-B has also been revised. In view of the change in the occupation/ activity coding system of BSR-1A, new 3-digit BSR-1B item codes have been introduced in place of 2-digit codes, which include a few new items too. However, data for all these revised items have not been included in this publication.

The data presented in some of the tables in this Volume are not strictly comparable with those of years prior to 2008.

Some new sectors have also been incorporated in detailed occupation-wise tables in this Volume.

3. BSR-1 relates to gross bank credit and comprises term loans, cash credit, overdrafts, bills purchased and discounted, bills rediscounted under the New Bill Market Scheme and also dues from banks, whereas, the bank credit data, based on returns under Section 42(2) of the RBI Act, 1934, is exclusive of dues from banks and bills rediscounted under the New Bill Market Scheme. BSR-1 is divided into two parts - Part A and Part B (termed as BSR-1A and BSR-1B). Till 1998, the BSR-1A return covered accounts with individual credit limit of over Rs. 25,000. Consequent upon the revision in the cut-off credit limit from March

1999 survey, BSR-1A for scheduled commercial banks other than Regional Rural Banks, covered accounts with individual credit limit of over Rs. 2 lakh. In the case of Regional Rural Banks, the cut off limit then was Rs. 25,000. The revision of cut off limit for classifying accounts in BSR-1A has been made as Rs. 2 lakh for Regional Rural Banks also from March 2002 onwards. In BSR-1A, information in respect of each of the borrowal accounts is collected on various characteristics, such as place (district and population group) of utilisation of credit, type of account, type of organisation, occupational category, category of borrower code, secured/ unsecured loan code, fixed / floating rate of interest flag, rate of interest, credit limit and amount outstanding. In BSR-1B, information in respect of accounts with individual credit limit upto Rs.2 lakh is obtained in consolidated form for broad occupational categories. The BSR-1B has two separate credit limit size groups, i.e., 'up to Rs. 25,000' and 'over Rs.25,000 to Rs. 2 lakh'. The information on small borrowal accounts are obtained in BSR-1B from all scheduled commercial banks (including regional rural banks).

4. In BSR-2, each bank office submits information on deposits with their break-up into current, savings and term deposits. Information on deposit accounts of females is given separately. Information of term deposits according to different maturity periods is also furnished in this return. In addition, BSR-2 provides information on staff strength, classified according to gender and category (i.e. officers, clerical and subordinates), in individual bank offices, as on the reference date of the returns. Deposits exclude inter-bank deposits. Current deposits comprise (i) deposits subject to withdrawal on demand (other than savings deposits) or on notice of less than 14 days, or term deposits with a

maturity period of less than 7 days (ii) call deposits withdrawable not later than 14 days; (iii) unclaimed deposits; (iv) overdue fixed deposits; (v) credit balance in cash credit and overdraft accounts and (vi) contingency unadjusted account if in the nature of deposits. Savings deposits are deposits accepted by banks under their savings bank deposit rules. Term deposits are deposits with a fixed maturity of not less than 7 days and above or subject to notice of not less than 14 days. These would also include (a) deposits payable after 14 days notice; (b) cash certificates; (c) cumulative or recurring deposits; (d) Kuri & Chit deposits and (e) special deposits in the nature of term deposits. Conceptually, the deposits data in BSR-2 and the aggregate deposits in Section 42(2) return are the same. In BSR-2, bank branches also give classification of term deposits according to broad interest rate ranges as well as size of deposits. Based on these data, tables giving percentage distribution of term deposits according to interest rate range and size of deposits are presented in the Volume. The data on residual maturity of term deposits, introduced in March 2003, are collected through Part-V of this return in respect of computerised branches of scheduled commercial banks, except regional rural banks and their percentage distribution are presented in the Volume.

5. Out of the 81,802 offices of scheduled commercial banks functioning as on the last day of March 2009, BSR-1 was received from 77,972 offices. BSR-2 was received from 79,105 offices. In the case of non-reporting offices the data have been estimated based on the previous round of the survey and from the available information in the Quarterly Return on Aggregate

Deposits and Gross Bank Credit (BSR-7) as of 31st March 2009.

Outline of the Volume

6. This Volume is divided into five Sections disseminating the data on deposits and credit of scheduled commercial banks with reference to various classificatory characteristics. Section 1 presents general information on commercial banking and also the summary data on deposits and credit at All-India level and state level. Section 2 gives State / District-wise distribution of deposits and outstanding credit classified according to population groups and bank groups. Data on distribution of deposits by type of deposits are presented in Section 3. Classification of outstanding credit according to different characteristics such as size of credit limit, rate of interest, type of organisation, type of account, bank group, state and population group, etc., are given in Section 4. In Section 5, these data are further classified according to occupation of the borrower. District and occupation-wise distribution of outstanding credit is also given in Section 5.

7. BSR-1A provides the identification of the district and population group of the place where the credit is utilised. However, in BSR-1B, such information is not being collected. It is presumed that in respect of these accounts, the credit is utilised in the same place where it has been sanctioned. State and population group-wise data on credit given in Sections 4 and 5 are based on place of utilisation of credit, whereas in Section 2, these are based on place of sanction of credit. In Section 1, data on credit when presented with deposits (Tables 1.3, 1.4 and 1.5) are as per place of sanction and when presented separately

(Tables 1.10 and 1.11), they are based on place of utilisation. Tables 1.6 to 1.8 present the data on credit according to both, the place of sanction and the place of utilisation, so as to facilitate comparison. A listing of tables on credit, which are based on place of sanction / utilisation, is also given in the 'Notes on Tables'.

NOTES ON TABLES

Table No. 1.1

Classification of bank offices according to population groups for the year 1969 is based on 1961 census. For the years 2001 to 2005, it is based on 1991 census. From the year 2006 onwards, it is based on 2001 census. As such, the population group-wise classification of bank offices is not strictly comparable for all the years. The number of bank offices of scheduled commercial banks excludes the administrative offices. Population per office, per capita deposits and per capita credit are based on estimated mid-year population figures supplied by the Office of the Registrar General, Government of India.

Deposits and credit of scheduled commercial banks in India are as per return under Section 42(2) of the Reserve Bank of India Act, 1934 and relate to the last Friday of the reference period. Deposits are net of inter-bank deposits and credit is exclusive of dues from banks and bills rediscounted under the New Bill Market Scheme. Aggregate deposits for the years 2001 to 2003 include the proceeds of Resurgent India Bonds amounting to Rs. 17,945 crore. For the years 2001 to 2005, the proceeds of India Millennium Deposits amounting to Rs. 25,662 crore are included in aggregate deposits. The ratio of bank deposits to National Income for the years 2001 to 2009 is based on the new series of National Income with 1993-94 as the base year. For the year 1969, the base year is 1970-71.

Due to change in the definition of the Priority Sectors from time to time, the data are not strictly comparable for the entire time span. Investments for the purpose of calculation of Investment-Deposit ratio pertain to investments in Government and Other Approved Securities.

For working out Cash-Deposit ratio, Cash includes, cash in hand and balances with Reserve Bank of India.
