5.	Distribution of Offices of Co-operative Banks with Capital and Reserves of Rs. 1 lakh and over	9

VI. INDEX

INTRODUCTION

The Statistical Tables relating to Banks in India for the year 1949, which is the eighth in the series since its publication was taken over by the Reserve Bank of India in 1941, relates to banks functioning in the Indian Union. Statistics relating to banks registered outside the Indian Union but functioning in the Indian Union have been included.

The presentation of the statistics is generally on the same lines as in previous issues. In the Detailed Tables, the table giving the liabilities and assets of exchange banks has been extended to include all banks registered abroad, and a new table showing the liabilities and assets in the Indian Union of banks registered abroad has been added. Corresponding changes have been effected in the Summary Tables.

The following additions have been made to the Summary Tables : Table 6—State-wise Distribution of Offices, Deposits and Advances of Scheduled Banks ; Table 14 (i)—Ownership of Demand Deposits of Scheduled Banks, 1945 and 1946 ; Table 14 (ii)—Ownership of Demand Deposits of Scheduled Banks, 1947 and 1948 ; Table 14 (iii)—Ownership of Demand Deposits of Scheduled and Non-Scheduled Banks, June 1949 ; Table 14 (iv)(a)—Ownership of Deposits of Scheduled Banks, December 1949 ; Table 14 (iv)(b)—Ownership of Deposits of Non-Scheduled Banks, December 1949 ; Table 15 (i)—Investments of Scheduled Banks in Government Securities, 1945 to 1947 ; Table 15 (ii)(a)—Investments of Scheduled Banks in Government Securities, December 1948, June 1949 and December 1949 ; Table 15 (ii)(b)—Investments of Non-Scheduled Banks in Government Securities, June 1949 and December 1949 ; Table 15 (iii)(a)—Total Investments of Scheduled Banks, June 1949 and December 1949 ; Table 15 (iii)(b)—Total Investments of Non-Scheduled Banks, June 1949 and December 1949 ; Table 16 (i)—Analysis of Advances of Thirty-nine Scheduled Banks, June 1948; Table 16 (ii)—Analysis of Advances of Scheduled Banks According to Purpose, 1949 ; Table 16 (iii)—Analysis of Advances of Non-Scheduled Banks According to Purpose, 1949 ; Table 16 (iv)—Analysis of Advances of Scheduled Banks According to Security, 1949 ; Table 16 (v)—Analysis of Advances of Non-Scheduled Banks According to Security, 1949 ; Table 17—Interest Allowed by Larger Scheduled Banks on Deposits during 1949 ; Table 18—Interest Charged by Joint Stock Banks on Advances during 1949 ; Table 19—Interest Charged by Provincial and Central Co-operative Banks during 1947-48 and 1948-49 ; Table 20—Circle-wise Distribution of Deposits of Post Office Savings Banks, 1948 and 1949 ; and Table 21—Transactions of Post Office Savings Banks (Upto 1949.)

Revised figures have been inserted wherever more recent data were available.

The number of banks covered is as follows :

				1946	1947	1948	1949
I. Indian Banks							
Scheduled		78	81	79	78
Non-Scheduled							
A2	58	68	72	76
B	188	185	191	187
C	128	121	119	115
D	168	170	158	129
Co-operative							
A	46	51	55	62
B	239	258	267	295
II. Foreign Banks							
Scheduled	16	16	16	16
Non-Scheduled	12	7	4	4
Total	..			933	957	961	962

Explanatory Note on the Tables

The Statistical Tables have been divided into two parts—Summary and Detailed. The Summary Tables present a consolidated picture of the more important liabilities and assets of the several classes of banks. The details of the liabilities and assets of each individual bank are given in the Detailed Tables. The banks have been classified as follows :

- (i) Reserve Bank of India,
- (ii) Indian banks comprising :
 - (a) the Imperial Bank of India and other Indian scheduled banks,
 - (b) Indian non-scheduled banks or Indian joint stock banks other than those included in the Second Schedule to the Reserve Bank of India Act, and
 - (c) Indian co-operative banks registered under the respective laws of the States where they are situated, and
- (iii) Foreign banks comprising scheduled and non-scheduled banks, whose registered offices are located outside the Indian Union.

Banks which carry on the business of banking in any State to which the Reserve Bank of India Act extends and which (a) have paid-up capital and reserves of an aggregate, real or exchangeable, value of not less than Rs. 5 lakhs, and (b) are companies as defined in Section 2 (2) of the Indian Companies Act, 1913, or corporations or companies incorporated by or under any law in force in any place outside India, are eligible for inclusion in the Second Schedule to the Reserve Bank of India Act, 1934, and when so included are known as Scheduled Banks.

There were only two scheduled banks with registered offices in Pakistan in 1947 and 1948 ; in 1946, the registered office of one of them was within the limits of the present Indian Union and that of the other within the present limits of Pakistan. Twelve scheduled banks, which had registered offices in Pakistan in 1946, shifted them subsequently to places in the Indian Union.

The non-scheduled banks have been divided into four classes : A2 banks or banks which have paid-up capital and reserves of Rs. 5 lakhs and over but which have not been included in the Second Schedule to the Reserve Bank of India Act ; B banks or banks having paid-up capital and reserves between Rs. 1 lakh and Rs. 5 lakhs ; C banks or banks having paid-up capital and reserves between Rs. 50,000 and Rs. 1 lakh ; and D banks or banks having paid-up capital and reserves of less than Rs. 50,000. A2 banks include several banks registered and working in the former Indian States which had not acceded to the Indian Union in respect of banking and had no branches in the Indian Union, and were, therefore, not eligible for inclusion in the Second Schedule. Non-scheduled banks included in the Tables comprise those working in the Indian Union which had been classified as banking companies under Section 277 F of the Indian Companies Act and which, therefore, submitted returns under Section 277L of that Act, and those registered in the Indian States. From September 1948 to February 1949 the returns were submitted under the Banking Companies (Control) Ordinance, 1948, and subsequently under the Banking Companies Act, 1949. Data relating to D banks are shown only in the Summary Tables.

Prior to March 1949, any company which used as part of its name the word 'bank,' 'banker' or 'banking' was deemed to be, according to the Indian Companies Act, 1913, as amended in 1942, a banking company, irrespective of whether or not banking was its principal business. Under the Banking Companies Act, 1949, banking has been more precisely defined and the minimum paid-up capital and reserves required of a banking company having only one

office has been fixed at Rs. 50,000. This limitation with regard to capital will become applicable in March 1952, three years after the Act came into force.

Co-operative banks covered by this publication comprise provincial and central co-operative banks, and registered non-agricultural (urban) co-operative credit societies, with limited liability, each having minimum paid-up capital and reserves of Rs. 1 lakh. They are sub-divided into two classes, namely, A banks with capital and reserves of Rs. 5 lakhs and over, and B banks with capital and reserves ranging between Rs. 1 lakh and Rs. 5 lakhs.

Table 1 :—*Liabilities and Assets of the Reserve Bank of India.* From 15 August 1947 to 30 June 1948 the Reserve Bank of India functioned as the central bank for the Indian Union and Pakistan. The liabilities and assets relating to Pakistan for this period are given in brackets below the consolidated figures for the Indian Union and Pakistan. Notes in circulation in 1949 include India notes issued prior to partition and held by the State Bank of Pakistan pending return to the Reserve Bank of India, and, in 1950, India notes returned from Pakistan and awaiting cancellation.

Table 2 :—*Liabilities and Assets of the Imperial Bank of India.* The liabilities and assets relate to the business of the bank both in the Indian Union and abroad. The figures of the offices of the bank for 1943 and earlier years include offices in Burma, for 1944 and 1945 they relate to undivided India, and for 1946 and after to the Indian Union. For the years 1946 to 1949 the number of offices outside the Indian Union are indicated in brackets.

Table 3 :—*Liabilities and Assets of Banks Registered Abroad.* The figures relating to exchange banks (banks incorporated outside the Indian Union and Pakistan) for 1945 and earlier years are as on the last Friday of each year, and for subsequent years as on the date of the balance sheets which, with one exception for the years 1946 to 1948, are as on 31 December. For 1945 and earlier years statistics of current and time deposits not being available, the data on demand and time liabilities as defined in Section 42(2) of the Reserve Bank of India Act, 1934, is taken to represent deposit liabilities; for subsequent years statistics of deposits have been taken from the balance sheets of banks. The statistics of deposits for 1949 of 'Other Banks Registered Abroad' are as shown in their respective balance sheets prepared under Section 29(1) of the Banking Companies Act, 1949, and for earlier years were compiled from the statistics supplied by the banks or were estimated on the basis of available data.

Tables 4(i), (ii) and (iii) :—*Liabilities and Assets of Indian Joint Stock Banks.* Table 4(i) relates to joint stock banks registered in undivided India and refers to the years ending 1945; and Table 4(ii) relates to joint stock banks having their registered offices in the Indian Union and refers to subsequent years. The figures for the year 1946 cover banks which transferred their registered offices from Pakistan to the Indian Union by 31 December 1947, and exclude banks which transferred their registered offices from the Indian Union to Pakistan by the same date.

Table 4(iii), which refers to the years beginning with 1946, relates to banks included in Table 4(ii) and gives separately statistics of their business in the Indian Union and their total business. In the last issue this Table related to the business of all joint stock banks excluding exchange banks. In the present issue the Table excludes the business in the Indian Union of banks registered abroad. Some banks could not submit returns for the years 1946 and 1947 due to the non-availability of the necessary records; certain other banks had suspended payments temporarily or were not functioning fully during these years. The data with regard to them were derived from the overall figures in their balance sheets, which were available for these years, and the detailed figures contained in a return for the nearest available date.

Table 5(i) :—Consolidated Position (Weekly) of Scheduled Banks for 1949. Table 5(i) is compiled from the weekly returns submitted by scheduled banks under Section 42(2) of the Reserve Bank of India Act, 1934, and relates to their working in the Indian Union.

Table 5(ii) :—Demand and Time Liabilities and Cash Balances of Non-Scheduled Banks, 1938 to 1947. Table 5(ii) relates to undivided India including the former Indian States for the years ending 1945 and, thereafter, to the Indian Union including all States, whether they had acceded to the Indian Union with respect to banking or not. It is compiled from the returns submitted under Section 277L of the Indian Companies Act, 1913 as amended in 1936.

Table 5(iii) :—Liabilities and Assets of Joint Stock Banks for 1949. Table 5(iii) is compiled for part of the year (January and February 1949) from the returns submitted under Section 8(1) of the Banking Companies (Control) Ordinance, 1948, and for the rest of the year from the returns submitted under Section 27(1) of the Banking Companies Act, 1949. It deals with the liabilities and assets of banking companies in the former Provinces of India and the former Indian States to which the Dominion laws in respect of banking were applicable. The figures in this table, therefore, differ from the figures given in Tables 5(i) and 5(ii), which relate to banks in the entire Indian Union.

Table 6 :—State-wise Distribution of Offices, Deposits and Advances of Scheduled Banks. Table 6 is compiled from returns submitted by banks to the Department of Banking Operations, Reserve Bank of India and gives statistics of the State-wise distribution of the offices, of deposits and of advances of scheduled banks. It differs from Table 11 which excludes foreign banks.

Table 7 :—Liabilities and Assets of Indian Co-operative Banks. Table 7(i), which deals with the years 1930-31 to 1944-45, relates to co-operative banks in undivided India ; and Table 7(ii), which deals with the years 1945-46 to 1948-49, relates to co-operative banks in the Indian Union. For years for which Statistics were not available those for the nearest year for which they were available were substituted, and where the total of the balance sheet was not available, the figure for total assets or total liabilities, whichever was higher, was taken.

Table 8 :—Comparative Position of the Several Classes of Banks in the Indian Union. Table 8 brings together for convenience of comparison the data for the past few years as given in Tables 3, 4(ii) and 7(ii).

Table 10(i) :—Distribution of Offices of the Several Classes of Banks by Population in 1949. Table 10(i) classifies the branches of the several categories of banks by reference to the numbers of the population of the places of their location. Population figures were taken from the Census Report for 1941, where available; in other cases they were supplied by (the former) Provincial or State Governments or banks, and relate to later years. Offices situated in places for which population figures were not available are treated as ‘unclassified.’

Table 10(ii) :—Distribution of Banking Offices by Population in the Several States. Table 10(ii) gives statistics of the number of banking offices in the several States of the Indian Union by reference to the population of the places of their location.

Table 12 :—Classification of Indian Joint Stock Banks by Size of Deposits, 1949. Table 12 gives the classification of banks by reference to the size of their deposits. It deals with banks included in Table 4 (ii).

Table 13 :—*Earnings and Expenses of Indian Banks (1946-49).* Tables 13A and 13B relate, respectively, to Indian scheduled banks and non-scheduled banks each having paid-up capital and reserves of Rs. 5 lakhs and over. The latest balance sheet and profit and loss account (on the basis of which returns were supplied for the purposes of this publication) of a few banks were for less than twelve months ; in their case the annual figures for 1949 were derived on the basis of the available data.

Tables 14, 15 and 16 embody the results of the surveys conducted by the Reserve Bank of India of deposits, investments and advances of banks. After the Banking Companies Act, 1949 came into force, the data of the surveys were supplied by banks in terms of Section 27(2) of the Act. The first of the present series of these surveys relate to the position as at 30 June 1949; the surveys of advances are quarterly and relate to all joint stock banks; the surveys of investments and deposits are half-yearly and relate to all scheduled banks and a sample of non-scheduled banks. The tables also give the results of the earlier annual surveys of investments and deposits of all scheduled banks, and a sample survey of advances of scheduled banks conducted in 1948.

Tables 14(i), (ii), (iii) and (iv) :—*Ownership of Deposits of Banks.* Table 14(i) gives statistics of the ownership of demand deposits, and that part of the savings deposits which are withdrawable on demand, of scheduled banks in undivided India as at 31 December 1945 and 31 December 1946. Table 14(ii) deals in fuller detail with the ownership of deposits of scheduled banks in the Indian Union and relates to the position as at the close of 1947 and 1948. Table 14(iii), which relates to the position as at 30 June 1949, gives statistics of the ownership of deposits of all scheduled banks and a sample of non-scheduled banks. Table 14(iv) deals with the ownership of demand, savings and time deposits of scheduled banks and a sample of non-scheduled banks as at 31 December 1949 ; the figures relating to demand deposits in this table are not comparable with the figures for previous years, as the latter include that part of savings deposits which is withdrawable on demand.

Tables 15(i), (ii) and (iii) :—*Investments of Banks.* Table 15(i) shows investments of scheduled banks in undivided India in Central and Provincial Government securities by maturity groups and Treasury bills as at the close of 1945, 1946 and 1947. Table 15 (ii) (a) gives similar statistics with regard to scheduled banks in the Indian Union as at 31 December 1948, 30 June 1949 and 31 December 1949 and include Government securities, Treasury bills, Treasury Deposit Receipts and Postal Certificates. Table 15(ii)(b) covers the same ground in respect of a sample of non-scheduled banks as at 30 June 1949 and 31 December 1949. Table 15(iii)(a) contains details of total investments of scheduled banks in the Indian Union as at 30 June and 31 December 1949, and Table 15(iii)(b) gives similar data for a sample of non-scheduled banks.

Tables 16(i), (ii), (iii), (iv) and (v) :—*Analysis of Bank Advances.* Table 16(i) gives an analysis of advances (including bills discounted and purchased) of a sample of 39 scheduled banks as at 30 June 1948. Tables 16(ii) and (iii) give a classification of advances according to purpose (or the principal business of the borrower) of all scheduled banks and all non-scheduled banks respectively, as at 30 June, 30 September and 31 December 1949. Tables 16(iv) and (v) give a classification of advances of scheduled banks and non-scheduled banks, respectively, according to the security against which the advances were granted and relate to the position as at 30 June 1949, 30 September 1949 and 31 December 1949. The data of advances by security for 30 June and 30 September exclude statistics of decreed debts, doubtful debts and bad debts, and give them separately in Section III of the table. This was changed in the survey for the last quarter of the year ; the figures of advances by security as at 31 December include all advances, and data on decreed debts, doubtful debts and bad debts are given separately under Supplementary Data in the table.

Table 17 :—Interest Allowed by Larger Scheduled Banks on Deposits during 1949. The interest rates on deposits shown in Table 17 relate to thirteen scheduled banks, each with deposit liabilities of Rs. 10 crores and above at the close of each quarter in 1949.

Tables 22, 23 and 24 :—Detailed Tables. Tables 22A, 23 and 24 are compiled from the balance sheet figures for each individual bank and relate to their total business including business outside the Indian Union. Table 22B relates to the business of the Indian Union offices of banks registered abroad as shown in their balance sheets in terms of Section 29(1) of the Banking Companies Act, 1949.

In Table 23, banks with paid-up capital and reserves of less than Rs. 50,000 are excluded. The names of the towns in which the registered offices of the banks are located are shown after the names of banks in column 2. Net profits earned are shown in brackets by the side of the balance of profit or loss in column 14. The number of offices of banks outside the Indian Union is shown in brackets by the side of the number of offices in the Indian Union in column 24.

Table 26 :—Indian Joint Stock Banks Liquidated during 1949. Table 26 shows the number of joint stock banks which went into voluntary liquidation, or were ordered to be liquidated, or otherwise ceased to function. The data were furnished by the Registrars of Joint Stock Companies. For the years prior to 1948 the statistics relate to undivided India.

Appendices

Appendix I gives the names of banks operating in the principal towns of the Indian Union. Banks other than scheduled banks and provincial co-operative banks are shown in italics. Non-scheduled banks with paid-up capital and reserves below Rs. 50,000, and banks which did not furnish the required data for 1948 and 1949, are omitted. Population figures given in the Census Report for 1941, where available, and, in other cases as supplied by the (former) Provincial and State Governments or banks are shown in brackets against each town. The information in respect of scheduled banks has been corrected as at 30 September 1950. The branches which were closed after the date of the balance sheet are indicated with an asterisk. The old names of places are shown in brackets by the side of the new.

Appendix II gives the names of Indian joint stock banks operating in places outside the Indian Union, and Appendix III, the names of the London agents and correspondents of scheduled banks. The names of the members and sub-members of the clearing houses in the Indian Union as at 30 September 1950 are given in Appendix IV.

The names of non-scheduled banks and indigenous bankers, included in the approved list of banks which are entitled to the concessional rates of remittances under the Reserve Bank's scheme of remittance facilities, introduced in October 1940, are given in Appendix V and the rates for such remittances in Appendix VI.

Banking Developments

The contraction in the demand and time liabilities of scheduled banks, which had set in about the middle of 1948, continued, with minor seasonal fluctuations, in 1949. In the first half of the year upon the downtrend was super-imposed the normal tendency for a drop in these liabilities during the busy season which, during the year under review, was unduly prolonged. By the close of July 1949 the fall in the demand and time liabilities of scheduled banks was about Rs. 97 crores. The advances and bills discounted by banks rose

rapidly during this period and touched an all-time peak of Rs. 514 crores on 6 May 1949. During the slack season, which followed, there was some recovery in the demand and time liabilities ; but by December 1949, when the new busy season had emerged, the slack season recovery in deposits was more than lost. The advances and bills discounted by banks in the latter part of the year declined, reflecting, in part, the seasonal fall in the demand for funds, and, in part, a tightening of import restrictions in May 1949 coupled with the virtual cessation of Indo-Pakistan trade with the devaluation of the Indian rupee in September 1949. During the year the demand and time liabilities of scheduled banks fell by Rs. 109 crores (Table 5 (i), page 6). A main explanation for a drop in the demand deposits of banks would appear to be the heavy balance of payments deficit of the year ; the impact of this upon the total money supply, however, was partly neutralised by a fall in the cash balances of the Government.

Banking Facilities

The number of offices of scheduled banks declined by 51 to 2,910 during 1949, though, owing to the failure to report of certain banks with 21 offices, and the removal from the Second Schedule of two banks with 25 offices, the returns submitted by scheduled banks show that the number of their offices declined during the year by 97 to 2,864. This decline is the net result of an addition of 28 offices of two banks, which were enlisted in the Second Schedule during the year, an increase by 10 of the offices of the Imperial Bank of India and by 1 of banks registered abroad, and a fall by 90 of the offices of other scheduled banks.

The offices of non-scheduled banks declined by 139 to 1,572 at the end of 1949 ; as in the previous year the bulk of the decline was in the case of the smaller banks, B, C and D banks accounting for three-fourths of it.

The number of offices of all classes of banks fell by 130 during 1949, though, owing to the failure to report of some banks, the returns submitted show an overall fall of 188 (Table A, page xii). Reference was made last year to the tendency of Indian banks to reduce their branches abroad, mainly in Pakistan. This tendency continued during 1949. The number of offices abroad of Indian scheduled banks fell from 226 in 1948 to 153 in 1949, and that of non-scheduled banks from 46 to 37 (Table 4(iii), page 5).

The offices of co-operative banks increased from 581 in 1948 to 629 in 1949 ; about 65 per cent of the total number of offices are in the smaller towns (Table 10(i), page 11).

About 52 per cent of the offices of scheduled banks are in the larger towns and cities, and about 67 per cent of the offices of non-scheduled banks in the smaller towns, which indicates a bias in favour of the larger population centres. The offices of scheduled banks in the smaller towns are, however, numerically larger than the offices of non-scheduled banks in them (Table 10(i), page 11).

The distribution of banking offices as at the close of 1949 shows that 44 per cent or 2,209 offices are in 132 towns having a population of 50,000 and above, which represents an average of one banking office per 8,993 of their population ; 56 per cent or 2,856 offices are located in 1,394 places having a population of less than 50,000, which yields an average of one banking office for every 6,251 of their population. For all places which are served by a banking office the average ratio of banks to population is one bank for every 7,490 of the population ; for the Indian Union as a whole the average ratio is one banking office for every 68,576 of the population.

* Relate to banks registered in Undivided India in 1938 and 1945, and in the Indian Union from 1947 to 1949

During 1949, forty-eight banks (as reported by the Registrars of Joint Stock Companies) either went into voluntary liquidation, were ordered to be liquidated or otherwise ceased to function. Their aggregate paid-up capital was Rs.1.03 crores.

Capital and Reserves

The working of the control of capital issues relating to banks during the year shows that 31 applications were received from existing banks for the issue of additional capital and 6 applications for the flotation of new banking companies. Twenty-two of the former received the approval of the Reserve Bank of India; all the latter applications were rejected.

The returns show that paid-up capital of existing banks rose by about Rs.1 crore and reserves by about Rs.1½ crores. Owing to a sharp fall in deposits during the year the ratio of capital and reserves to deposits increased from 7.16 per cent in 1948 to 8.30 per cent in 1949, in the case of Indian scheduled banks, and from 16.88 per cent to 18.90 per cent in the case of non-scheduled banks (Table B, page xii).

Deposits

The total deposits of joint stock banks in the Indian Union fell in 1949 by Rs.88.18 crores to Rs.922.11 crores, or by over twice the fall in 1948. The bulk of the fall was in current deposits ; the fall in fixed, savings and 'other' deposits was comparatively small. The drop in deposits of scheduled banks during the year amounted to Rs. 82.80 crores, about three-fifths of which was accounted for by current deposits (Table C, page xiv). The total deposits of scheduled banks at the close of 1949 amounted to Rs.852.93 crores.

The deposits in the Indian Union of Indian scheduled banks fell by Rs.82.40 crores to Rs.686.37 crores, which was more than thrice the fall in 1948 (Table C, page xiv). The total deposits of foreign scheduled banks remained steady at Rs.167 crores during the year ; in 1948 they had declined by Rs. 6.57 crores. The total deposits, outside the Indian Union, mainly in Pakistan, of Indian scheduled banks declined by Rs.32.86 crores to Rs.73.55 crores during 1949, current deposits accounting for a fall of Rs.17 crores and 'other' deposits Rs.12 crores ; in 1948 total deposits outside the Indian Union had declined by Rs.4 crores. The heavy fall in 1949 is due, in part, to the smaller number of offices abroad and, in part, probably reflects the reduced requirements of funds in Pakistan on the part of Indian importers consequent upon the Indo-Pakistan trade deadlock since the devaluation of the Indian rupee in September 1949 (Table 4(iii), page 5).

The total deposits of non-scheduled banks in the Indian Union declined by Rs.5 crores to Rs.69.18 crores in 1949, the decline in current deposits being Rs.3 crores.

The total deposits of co-operative banks, which have been moving up more rapidly in recent years, rose from Rs.71.59 crores in 1948 to Rs.87.26 crores in 1949.

Of banks having deposits of Rs.1 crore and above in 1949, 59 (48 scheduled banks and 11 non-scheduled banks) or 10 per cent of the number of banks account for over 90 per cent of the deposits of all Indian joint stock banks ; the seven largest among scheduled banks have over 68 per cent of the total deposits. Non-scheduled banks with less than Rs. 1 crore of deposits have larger fixed deposits than savings or current deposits (Table 12, page 14). The seven largest among scheduled banks and one non-scheduled bank with deposits of over Rs.5 crores have reserves in excess of their paid-up capital.

The Reserve Bank of India surveys of the ownership of demand deposits (including the demand liability part of savings deposits) of scheduled banks show a sharp drop in deposits of Rs.57 crores in the first half of 1949. About three-fifths of it occurred in the deposits of manufacturing and trading concerns and would appear to reflect the exceptionally stringent busy season of the year and the heavy imports which followed a liberalisation of import controls. The total deposits of scheduled banks covered by the survey as at 31 December 1949 amounted to Rs.826 crores, of which Rs.478 crores (58 per cent) were demand deposits, Rs.134 crores (16 per cent) savings deposits, and Rs.214 crores (26 per cent) time deposits (Table 14 (iv) (a), page 20). About half (51 per cent) of the demand deposits were owned by business concerns and 29 per cent were personal deposits ; nearly three-fifths (59 per cent) of time deposits were personal deposits and 24 per cent were owned by business concerns. Savings deposits were almost entirely personal (97 per cent).

Cash

The cash balances of scheduled banks declined by Rs.10.83 crores to Rs. 136.02 crores in 1949 ; owing to a fall in deposits during the interval, their ratio to deposits, however, increased from 15.69 per cent in 1948 to 15.95 per cent in 1949. The cash balances of Indian scheduled banks fell by Rs.12.45 crores to Rs.116.63 crores and the cash ratio, for the same reason as above, rose from 16.79 per cent in 1948 to 16.99 per cent in 1949. The cash balances of foreign scheduled banks increased by Rs.1.62 crores to Rs.19.39 crores and their cash ratio from 10.64 per cent in 1948 to 11.64 per cent in 1949. In the case of non-scheduled banks cash balances rose by Rs.1.92 crores to Rs.11.79 crores in 1949 relatively to 1948 and their cash ratio rose from 13.24 per cent to 17.04 per cent during the same interval. The cash balances of co-operative banks rose in 1949 by Rs.27 lakhs to Rs. 8.41 crores (Table D, page xiv).

Investments

Investments of Banks declined sharply during the year due, in the main, to a withdrawal of deposits and, in part, to an increase in advances, which were exceptionally heavy during the busy season. The investments of Indian scheduled banks dropped by Rs. 92.09 crores to Rs. 348.79 crores ; almost the whole of this decline (Rs.87.18 crores) occurred in government securities. The withdrawal of deposits was met mainly by a liquidation of government securities ; though advances, too, declined their ratio to deposits was more than maintained. The ratio of total investments to deposits declined from 50.38 per cent in 1948 to 45.90 per cent in 1949 (Tables F and G, pages xvi and xviii).

The Reserve Bank of India Surveys of Investments show that the investments of scheduled banks (covered by the surveys) in government securities declined by Rs.107 crores to Rs.343 crores in the first half of 1949 and rose by Rs.14 crores to Rs.357 crores in the second half of the year. The fall in the first half of the year was made up of Rs.38 crores of short-dated securities maturing within 5 years, Rs.16 crores maturing between 5 and 10 years (short-mediums), Rs.35 crores maturing between 10 and 15 years (medium-longs) and Rs.18 crores maturing after 15 years (longs) ; the rise in the latter half was the net result of an increase of Rs.12 crores and Rs.18 crores, respectively, in the first two maturity groups and a decline of Rs.16 crores in the third; there was no material variation in the fourth group. At the end of 1948 about 30 per cent of total investments in government securities were held in 'shorts' 21 per cent in 'short-mediums,' 32 per cent in 'medium-longs' and 18 per cent in 'longs' ; a year later, while the proportion held in the first group remained unchanged, that in the second group increased to 27 per cent ; in the last two groups it declined to 26 per cent and 17 per cent, respectively. The ratio of government securities to total investments at the end of 1949 was 89 per cent for scheduled banks. Other investments amounted to Rs.45 crores, of

3. Co-operative Banks with Capital and Reserves of Rs. 1 lakh and above	27,73	41·48	29,16	40·73	26,58	30·46

* Relate to banks registered in undivided India in 1938 and 1945 and in the Indian Union from 1947 to 1949.

which Rs.20 crores were in foreign investments, Rs.13 crores in shares and debentures of joint stock companies, Rs.5 crores each in trustee securities and real estate, and Rs.1½ crores in 'all others' (Tables 15(ii) and (iii) (a), pages 22 and 23).

Investments, both in government securities and other investments, of non-scheduled banks declined in 1949, except in the case of C banks where they increased slightly, the increase being wholly under government securities. The ratio of investments to deposits in the case of non-scheduled banks was about 31.80 per cent both in 1948 and 1949.

Loans and Advances

Loans and advances of scheduled banks, including bills purchased and discounted, declined by Rs.12.99 crores to Rs. 441.93 crores in 1949 relatively to 1948, and, due to a fall in the volume of deposits, their ratio to deposits rose, during the same interval, from 48.62 per cent to 51.81 per cent. In the case of Indian scheduled banks loans and advances declined by Rs. 19.49 crores to Rs.319.82 crores in 1949, and their ratio to deposits rose from 44.14 per cent in 1948 to 46.60 per cent in 1949. Loans and advances of foreign scheduled banks showed an upward trend rising from Rs.97.54 crores in 1947 to Rs.115.61 crores in 1948 and to Rs.122.11 crores in 1949, and their ratio to deposits rose to 73.31 per cent in 1949 as against 69.24 per cent in 1948 and 56.21 per cent in 1947 (Table E, page xvi).

Loans and advances of Indian banks abroad fell from Rs.37.90 crores in 1948 to Rs.23.90 crores in 1949. This was an inevitable consequence of the fall in deposits abroad of these banks.

In the case of non-scheduled banks loans and advances declined from Rs.51.11 crores in 1948 to Rs.49.45 crores in 1949 and, due to a fall in the volume of deposits, their ratio to deposits rose from 68.55 per cent in 1948 to 71.48 per cent in 1949. The ratio of loans and advances to deposits was 94.85 per cent in the case of C banks and 86.79 per cent in the case of D banks in 1949.

Loans and advances of co-operative banks rose sharply by Rs.17.47 crores to Rs.60.81 crores as between 1948 and 1949 ; a part of this increase is explained by an increase in the number of reporting banks ; in part it reflects a rise in the deposit resources of co-operative banks.

The results of the Surveys of Advances conducted by the Reserve Bank of India show that the loans and advances of scheduled banks, including bills purchased and discounted, fell from Rs.476½ crores as at 30 June 1949, to Rs. 443½ crores as at 30 September 1949, and to Rs.438½ crores as at 31 December 1949, or a fall of Rs.38 crores during the two quarters to which the Surveys related ; the fall in loans and advances to industry amounted to Rs.21 crores, to commerce Rs.4 crores, to agriculture Rs.9 crores, and to 'all others' Rs.4 crores. Of the total loans and advances, the share of commerce varied between 48 per cent and 51 per cent, the share of industry, which came next, between 30 per cent and 32 per cent, and the share of agriculture between 2 per cent and 4 per cent ; personal and professional advances were about 8 per cent, and 'all others' about 7 per cent. Unsecured advances were about 12 to 13 per cent of the total. A classification of advances by security shows that about 40 per cent of total advances were made against merchandise, 12 per cent against government securities, and 12 per cent against other stock exchange securities (Tables 16(ii) and (iv), pages 25 and 27).

The loans and advances of non-scheduled banks, as shown in the Surveys, rose by Rs. 13 crores during the last two quarters of 1949 to Rs. 43 crores as at 31 December 1949. A good part of this rise is probably explained by

an increase in the number of non-scheduled banks covered by each succeeding Survey. The share of commerce in these advances was about 41-42 per cent ; personal and professional advances, which came next, accounted for 23-29 per cent, and advances to industry 18-19 per cent. Unsecured advances of non-scheduled banks were about 21-22 per cent of the total, advances against the hypothecation and pledge of merchandise about 20-22 per cent, and advances against real estate and bullion, including ornaments, about 17, and 15-18 per cent, respectively (Tables 16 (iii) and (v), pages 26 and 28).

Earnings and Expenses of Indian Banks

The earnings of scheduled banks declined from Rs. 29.04 crores in 1948 to Rs. 28.68 crores in 1949 ; the decline in earnings is somewhat more than these figures indicate, as the number of scheduled banks in 1949 rose by two. The expenses of scheduled banks in 1949 rose by about Rs. 6 lakhs to Rs. 21.12 crores relatively to 1948 (Table H, page xviii and Tables 13A and 13B, pages 15 and 16) and their net profits fell by Rs. 19 lakhs to Rs. 7.88 crores ; in the case of non-scheduled banks both earnings and expenses (including depreciation charges) showed a rise of about Rs. 10 lakhs, reflecting in part an increase in their number, and their net profits remained at about Rs. 43 lakhs in the two years.

The earnings of scheduled banks from investments in government securities declined (by Rs. 1.89 crores) from 34 per cent of total earnings in 1948 to 28 per cent in 1949 though, during the interval, the yield on their holdings of government securities rose from 2.5 per cent to 2.6 per cent. The fall in earnings reflects a fall in the banks' portfolios of government securities. The earnings from loans and bills rose from 51 per cent of total earnings in 1948 to 55 per cent in 1949, and the earnings from 'other' investments remained around 1.6 per cent in either year. The earnings of non-scheduled banks, from government securities and advances, rose by about Rs. 2 lakhs and Rs. 6 lakhs, respectively, during the year under review relatively to 1948. Their earnings from government securities as a percentage of total earnings rose nominally from 15.6 per cent in 1948 to 15.9 per cent in 1949 ; the yield on their holdings of government securities was 2.5 per cent in 1948 and 2.8 per cent in 1949. The earnings from bills and loans fell nominally from 71.2 per cent of total earnings in 1948 to 70.8 per cent in 1949 and their earnings from other investments remained steady around 6.7 per cent during the two years.

The establishment expenses of banks continued to increase and absorbed 36 per cent of total earnings of scheduled banks in 1949 as against 33 per cent in 1948 and 27 per cent in 1946. Interest paid to depositors declined from 24 per cent of total earnings in 1948 to 22 per cent in 1949, in part reflecting a decline in deposits. The percentage of other items of expenditure in 1949 to total earnings remained about the same as in 1948. The establishment expenses of non-scheduled banks rose from 23 per cent of total earnings in 1948 to 26 per cent in 1949. The corresponding percentage in 1946 was 21. The interest paid on deposits declined from 35 per cent of total earnings in 1948 to 32 per cent in 1949 and the interest paid on borrowings and other accounts declined from 6.4 per cent of total earnings to 4.5 per cent of this sum. The ratio of other items of expenditure to total earnings remained unchanged in 1949 relatively to 1948.

The ratio of current operating expenses to total earnings rose from 72.5 per cent in 1948 to 73.7 per cent in 1949 in the case of scheduled banks, and declined from 77.1 per cent to 75.9 per cent in the case of non-scheduled banks. The ratio of net profits to total earnings was 28 per cent both in 1948 and in 1949 for scheduled banks ; this ratio fell from 21 per cent in 1948 to 20 per cent in 1949 for non-scheduled banks. The ratio of net profits to paid-

up capital and reserves fell from 13.4 per cent in 1948 to 12.9 per cent in 1949 in the case of scheduled banks and from 7.2 per cent to 6.0 per cent in the case of non-scheduled banks.

The amount set aside for taxes by scheduled banks rose by Rs. 8 lakhs in 1949 to Rs. 2.48 crores. As in past years it constituted the largest single item debited to profits ; its ratio to net profits rose from 29.8 per cent in 1948 to 31.5 per cent in 1949. The amount added to general reserves represented 7.8 per cent of net profits in 1949 as against 12.3 per cent in 1948 ; during the same interval, the amount allocated to 'other special purposes', which include depreciation funds and contingencies, rose from 21.7 per cent of net profits to 24.1 per cent of this sum. In the case of non-scheduled banks, allocations for taxes declined from 34 per cent of net profits in 1948 to 30 per cent in 1949, while the allocations for general reserves and 'other special purposes' together rose from 50 per cent of net profit to 52 per cent, the transfers to general reserves being 31.3 per cent in 1948 and 30.4 per cent in 1949. The larger allocations to general reserves probably reflects a desire on the part of non-scheduled banks to raise their reserves to the level of their paid-up capital. The ratio of these reserves to paid-up capital in their case is smaller than in the case of scheduled banks. The Banking Companies Act, 1949 requires that at least 20 per cent of net profits should be added to reserves until reserves equal paid-up capital.

Dividend and bonuses to shareholders represented 29.6 per cent of net profits in 1948 and 30.3 per cent in 1949 for scheduled banks, and 20.7 per cent and 29.7 per cent respectively for non-scheduled banks. Payments of bonuses to employees rose to 12.2 per cent of net profits in 1949 for scheduled banks and to 6.5 per cent for non-scheduled banks. The corresponding percentages were 10.9 per cent in 1948 and 8.0 per cent in 1946 for scheduled banks, and 4.8 per cent and 3.2 per cent respectively for non-scheduled banks. The amount carried forward to next year's account was Rs. 68 lakhs or about 9 per cent of the net profits for scheduled banks in 1949. For non-scheduled banks the corresponding amount (Rs. 16.5 lakhs) for the year (Table 13B, page 16) is negative, indicating a net loss carried forward. The negative figure resulted from the inclusion in these statistics during the year of certain non-scheduled banks whose working had shown heavy losses, which were carried forward.

Considerable assistance has been received from the Registrars of Joint Stock Companies, the Registrars of Co-operative Societies and from banks in compiling this publication and the Reserve Bank of India thanks them for their co-operation.

TABLE OF NOTATIONS

The following symbols have been used throughout the Tables :—

- (a) Included in the Second Schedule to the Reserve Bank of India Act
- (b) Includes Savings Deposits
- (c) Includes Cash Certificates
- (d) Includes Contingencies
- (e) Includes Other Accounts
- (f) Includes Savings and Other Accounts
- (g) Includes Cash at Banks
- (j) Includes Bills Discounted
- (k) Includes Other Investments
- (l) Includes Cash with the Reserve Bank of India
- (m) Includes Fixed Deposits with Banks
- (p) Indicates the period covering Profit or Loss and the number following denotes the period in months
- (y) Includes Cash in Savings Deposits
- (z) Includes Accumulated Losses

- (B) Includes Bonus
- (I) Incometax Free
- .. Figure is not available
- Figure is nil or negligible
- † Office closed since the date of the balance sheet
- †† Balance sheet not available

Where necessary, each figure has been rounded off to the nearest final digit.
For this reason, in some Tables, the constituent items may not add up to the total.

Note.—Names of towns with those of Provinces or States within brackets are printed in antique type. Banks other than Scheduled Banks and Provincial Co-operative Banks are shown in italics. R. O.=Registered Office ; H.O.= Head Office ; C. O.= Central Office ; B.= Branch ; S.B.= Sub-Branch ; S.O.= Sub-Office ; P.O.= Pay Office ; S.P.O.= Sub-Pay Office ; T.P.O.= Treasury Pay Office. Where the Central Office, Head Office and Registered Office are at one place, they are shown as Registered Office only. Number given against a bank indicates the number of offices in the town. Population figures given in the Census Reports for 1941, and, where this is not available as supplied by Provincial and State Governments and banks, are shown in brackets against the names of places.

*Information regarding offices of scheduled banks is incorporated upto 30th September, 1950, wherever available, while those of non-scheduled banks and co-operative banks have been incorporated, as on the date of the latest balance sheet or returns submitted to us. Non-scheduled banks with capital and reserves below Rs. 50,000 are omitted from this Appendix. Non-scheduled banks which have not sent the required statistics for 1948 and 1949 have also been omitted.

**Name changed to Ahmedabad Mercantile Co-operative Bank from 1st April, 1950.
