INTRODUCTION

The Statistical Tables relating to Banks in India for the year 1960 is the *nineteenth* in the series since the publication was taken over by the Reserve Bank in 1941 and covers banks functioning in the Indian Union, whether registered in the Indian Union or outside. The presentation of data is generally on the same lines as in previous issues. The statistics relating to assets and liabilities as well as earnings and expenses of commercial banks are compiled from special returns furnished by them, unless otherwise indicated. The Tables have been presented in two parts—summary and detailed. The summary Tables give the more important items of liabilities and of assets of the several classes of banks. Particulars regarding the liabilities and assets of individual banks are given in the detailed Tables. The figures for earlier years have also been revised in some cases.

2. The number of banks covered by the Tables is as follows:—

EXPLANATORY NOTES TO THE TABLES

3. The banks included in the Statistical Tables have been classified as follows:—

- (i) Reserve Bank of India ;
- (ii) Indian Commercial Banks comprising:
 - (a)* The State Bank of India and other scheduled banks;
 - (b) Non-scheduled banks (including State-owned and State-controlled banks) *i.e.* other than those included in the Second Schedule to the Reserve Bank of India Act, 1934;
- (iii) Foreign banks whose registered offices are located outside the Indian Union; and
- (iv) State and Central Co-operative banks and Urban Co-operative banks (including banking unions and industrial co-operative banks), with capital and reserves of Rs. 1 lakh and over, registered under the laws of the States, where they are situated.

Banks which carry on the business of banking in India and which, (a) have paid-up capital and reserves of an aggregate, real or exchangeable value of

not less than Rs. 5 lakhs, (b) are either companies as defined in Section 3 of the Companies Act, 1956, or corporations or companies incorporated by or under any law in force in any place outside India or institutions notified by the Central Government in this behalf and, (c) satisfy the Reserve Bank that their affairs are not being conducted in a manner detrimental to the interests of their depositors, are eligible for inclusion in the Second Schedule to the Reserve Bank of India Act, 1934, and when so included are known as 'scheduled banks'. The scheduled banks are further grouped into (a) Indian scheduled banks (Class A1), i.e. banks having their registered offices in the Indian Union and (b) foreign scheduled banks, i.e. banks having their registered offices outside the Indian Union.

4. The non-scheduled banks have been classified into four categories: A2 banks, having paid-up capital and reserves of Rs. 5 lakhs and above; B banks, having paid-up capital and reserves of between Rs. 1 lakh and Rs. 5 lakhs each; C banks, having paid-up capital and reserves of between Rs. 50,000 and Rs. 1 lakh; and D banks, having paid-up capital and reserves of less than Rs. 50,000. Data relating to D banks are given in the summary Tables only.

5. Prior to March 1949, any company which used as part of its name the word 'bank', 'banker' or 'banking' was deemed according to the Indian Companies Act, 1913, as amended in 1942, to be a banking company, irrespective of whether or not banking was its principal business. Under the Banking Companies Act, 1949, however, a 'banking company' has been defined as a company carrying on the business of banking in India and 'banking' has also been defined. Further, the types of business which a banking company may transact in addition to banking have also been stated precisely and minimum paid-up capital and reserves, varying with the geographical coverage of a banking company, have been prescribed. A banking company is required to use as part of its name the word 'bank', 'banker' or 'banking', while a non-banking company is prohibited from using any of these words in its name. The provision with regard to the use of the words 'bank', 'banker' or 'banking' came into force on March 16, 1951, and the stipulation with regard to capital became applicable to existing banking companies on March 16, 1952. The Banking Companies Act, 1949 was extended to the whole of the Indian Union, except the State of Jammu and Kashmir, in March 1950, while the Banking Companies Rules were extended to these areas in November 1952. With effect from November 1, 1956 the Banking Companies Act, 1949 as well as the Banking Companies Rules were extended to the State of Jammu and Kashmir.

6. Data in respect of liabilities and assets as at the end of the co-operative year (July-June) relating to State and Central co-operative banks as well as urban co-operative banks@, banking unions and industrial co-operative banks each with capital and reserves of not less than Rs. 1 lakh are given in Tables 2 and 8. In Tables 13 and 14 and in Appendix I, data relating to offices of co-operative banks are given as on June 30, 1960.

7. Table 1 : *Liabilities and Assets of the Reserve Bank of India*. From August 15, 1947 to June 30, 1948 the Reserve Bank of India functioned as the central bank of the Indian Union as well as of Pakistan. The liabilities and assets relating to Pakistan for this period are given in brackets below the consolidated figures for the Indian Union and Pakistan. Notes in circulation since July 1, 1948 include India notes issued prior to partition and held by the State Bank of Pakistan pending return to the Reserve Bank of India, and India notes, returned from Pakistan, and awaiting cancellation. Figures are given quinquennially upto 1945 and annually thereafter.

8. Table 2 : *Liabilities and Assets of the Several Classes of Banks (Total Business)*. This Table presents separately the more important items of liabilities and assets of the State Bank of India, other Indian commercial banks, foreign

banks, State co-operative banks, Central co-operative banks as well as urban co-operative banks, banking unions and industrial co-operative banks each with capital and reserves of not less than Rs. 1 lakh. The data for commercial banks have been collected through a special return based on their balance sheets. Figures in respect of Indian banks relate to their total business and those of foreign banks to their business in the Indian Union. Figures of reserves of commercial banks for the years 1958 to 1960, shown in this Table, differ from those given for earlier years and also from the figures for 1959 and 1960 given in Table 4(i), in that, the figures in Table 2 do not include provisions made for specific purposes such as investment depreciation fund, sinking fund, reserve for bad and doubtful debts, reserves on account of accrued interest, taxation, pension, provident fund, gratuity etc. and funds set aside for charity, building and development. However, some of these provisions have been included by banks under "Reserve fund and other reserves" in their balance sheets. For the sake of uniformity and clarity these provisions have been treated as 'other liabilities' for purposes of all Tables except Table 4(i).

9. Table 3 : *Consolidated Position (Weekly) of Scheduled Banks.* The data are compiled from the weekly returns submitted by scheduled banks under Section 42(2) of the Reserve Bank of India Act, 1934, and relate to their business in the Indian Union.

10. Table 4(i) : *Liabilities and Assets of the Several Classes of Commercial Banks, 1959 and 1960.* This Table gives the details of liabilities and assets of commercial banks as given in their balance-sheets. The data have been given separately for (i) the State Bank of India, (ii) other major Indian scheduled banks,* (iii) other Indian scheduled banks, and (iv) foreign banks. Non-scheduled banks have been sub-divided into four classes according to paid-up capital and reserves, as set out in paragraph 4. This Table contains fuller details than the detailed Tables or summary Tables 2 and 6 which have been compiled from the special return. As regards deposits, 'current and contingency accounts' have been grouped together in Table 4(i), while in the detailed and other summary Tables, 'contingency accounts' have been separated from 'current accounts' and have been grouped with 'other deposits', if they are in the nature of deposits or else with 'other liabilities'. Besides, provident fund deposits, staff security deposits, *chit* and *kuri* deposits included under 'other deposits' in Table 4(i) have been treated as 'other liabilities' in the detailed and summary Tables since 1955.

11. Table 4(ii) : *Income, Expenditure and Distribution of Profit of the Several Classes of Commercial Banks, 1959 and 1960.* This Table gives the details of income, expenditure and distribution of profit as given in the profit and loss account and the directors' report to the shareholders. Profit shown in this Table refers to profit prior to allocations for taxation and reserves; in the case of banks which have shown the figures after making such allocations and have disclosed such allocations in the profit and loss account or in the directors' report to shareholders, necessary adjustments have been made.

12. Table 5 : *Liabilities and Assets of Indian Commercial Banks relating to their Business in the Indian Union and Total Business.* The Table relates to commercial banks registered in the Indian Union and gives separate statistics of their business in the Indian Union and their total business.

13. Tables 7(i), (ii), (iii) and (iv) : *Earnings and Expenses of Banks, 1956 to 1960.* Tables 7 (i) and 7(iii) show, respectively, the total earnings and expenses of Indian scheduled banks and non-scheduled banks each having paid-up capital and reserves of Rs. 5 lakhs and above. Table 7(ii) relates to the earnings and expenses of foreign scheduled banks in respect of their business in the Indian Union. Table 7(iv) gives the ratios of the various items of earnings, expenses and profit to current operating earnings and the ratios

* viz. (1) Allahabad Bank, (2) Bank of Baroda, (3) Bank of India (4) Central Bank of India, (5) Indian Bank (6) Punjab National Bank, (7) United Bank of India and (8) United Commercial Bank.

of the various items of allocation to profit. As stated earlier, these Tables are compiled from a special return submitted by banks. In order to ensure uniformity, figures of earnings and profit have been compiled for the year 1960 on the basis of the balance sheets and profit and loss accounts of banks. Further, from the year 1959, earnings from investments are inclusive of taxes paid at source which have been included in the item XIII(a)-provision for taxes on profits. In view of this, figures in respect of earnings on investments and consequently of profit for the years 1959 and 1960 are not strictly comparable with the figures for the previous years. The balance of profit or loss has been arrived at before providing for taxation and bonus to staff.

14. Table 10 : *Average Rates of Interest on Deposits, Advances and Bills of Scheduled Banks, 1959 and 1960.* This Table gives the average rate of interest paid on deposits and that earned on advances and bills. These rates are worked out from the return submitted by banks under the half-yearly Survey of Interest Rates on Deposits and Advances. Data have been shown separately for two groups of banks classified according to the size of their deposits—(1) those with deposits of Rs. 25 crores and above and (2) those with deposits of less than Rs. 25 crores.

15. Table 13 : *Distribution of Banking Offices by Population in the Several States, 1960.* This Table gives the statistics of the number of banking offices, including temporary and seasonal offices, in the several States of the Indian Union. Offices of banks which have not sent the required statistics for 1959 and 1960 as well as those in liquidation or which have been refused licences during 1960 under Section 22 of the Banking Companies Act, 1949, have been excluded. The population figures were mostly obtained from the 1951 Census and in a few cases from the Regional Census Commissioners and banks themselves. Offices situated in places of which population figures were not available are included under 'unclassified'.

16. Table 16 : *Advances of Selected Scheduled Banks at Various Rates of Interest, 1960.* The data relate to 15 selected scheduled banks and are as on the last Friday of each quarter. Advances shown against item 9 relate to loans and advances as reported in Form XIII under Section 27(1) of the Banking Companies Act, 1949 and include 'money at call and short notice' and 'due from banking companies' but exclude 'bills purchased and discounted'.

17. Table 17 : *Liabilities and Assets in Foreign Countries of Indian Banks.* The data are compiled from the monthly returns submitted by these banks. The figures shown in this Table are somewhat different from those given in Table 5 as the figures in this Table are as on the last Friday of December, while those in Table 5 are compiled from a special return based on the balance sheet as at the end of December. The cash ratio is the ratio of cash and balances with the central bank (or balances with other banks in current account, in countries where there is no central bank) to total deposits.

18. Table 18 : *Velocity of Circulation of Deposit Money of Scheduled Banks.* Figures in this Table are compiled from the returns submitted by the offices of scheduled banks operating at places having a population of one lakh and above in the Indian Union for the Survey of Debits to Deposit Accounts. The method of computation of the rate of turnover of current deposits has been changed from 1958 as explained in the foot-note to the Table.

19. Table 23 : *Indian Commercial Banks which have gone into liquidation or have otherwise ceased to function.* This Table shows the number, capital and

deposits of commercial banks which went into voluntary liquidation, or were ordered to be liquidated, or otherwise ceased to function since 1953. The data were furnished by the Registrars of Companies.

20. Tables 25 and 26: *Detailed Tables*. Tables 25(ii) and 26 are compiled from a special return based on the balance sheet for each individual bank as stated earlier. Table 26 relates to the total business of Indian banks (including business outside the Indian Union). The date of registration or incorporation is shown below the name of each bank. Table 25(ii) relates to the business of foreign banks in the Indian Union. *Profit earned during the year* refers to profit prior to allocations for taxation and reserves ; in the case of banks which have shown profit after making such allocations and have disclosed such allocations in the profit and loss account or in the directors' report to shareholders, necessary adjustments have been made. This procedure has been followed to ensure uniformity in arriving at profit, made during the year, before appropriations are made by banks for various purposes.

21. In Table 26, banks with paid-up capital and reserves of less than Rs. 50,000 are excluded. The name of the town in which the registered office of the bank is located is shown after the name of the bank in column 2. The number of offices of banks outside the Indian Union is shown in brackets alongside of the number of offices in the Indian Union under column 25.

22. Banks which have gone into liquidation or which otherwise ceased to be banking companies during 1960 or which did not submit returns have been excluded from the summary Tables for the year 1960.

23. *Appendices* : Appendix I gives the names of banks operating in the various towns of the Indian Union. Offices of co-operative banks as reported by the Registrars of Co-operative Societies are also included. Banks other than scheduled banks and State co-operative banks are shown in italics. Non-scheduled banks with paid-up capital and reserves below Rs. 50,000 and banks which did not furnish the required data for 1959 and 1960 are excluded. Population figures are shown in brackets against each town. The information in respect of scheduled banks has been brought up to March 31, 1961. The branches which were closed after the date of the balance sheet are indicated by an asterisk. Where places have been renamed, the old names are shown in brackets. The name of the State in which the place is situated is shown in brackets.

24. Considerable assistance has been received from banks, Registrars of Companies and Co-operative Societies and the Indian Posts and Telegraphs Department in compiling this publication and the Reserve Bank of India thanks them for their co-operation.

† Include credit balances in cash credit accounts.

@ Includes data relating to Government and quasi-Government bodies and business and individuals.

Note—In this statement the rate of turnover of current deposits till 1957 was calculated by dividing the debits to current deposit accounts and cash credit and overdraft accounts during the year by the monthly average of current deposits. Debits to cash credit and overdraft accounts figures under columns (11) and (12) and debits to current deposit accounts figures under columns (5) and (6) are separately available from the beginning of 1958 only. For the years 1958 onwards, the rate of turnover of current deposits is calculated by dividing debits to current accounts during the year by the monthly average of current deposits. As such, figures shown in columns (7) and (8) for the years 1958 onwards are not comparable with the figures for earlier years. The overall rate of turnover is arrived at by dividing debits to current accounts and cash credits and overdrafts by the average outstandings of current accounts and effective cash credit and overdraft limits.
