## **Introduction**

1. The Prevention of Money Laundering Act (PMLA) forms the core of the legal framework put in place by India to combat money laundering. PMLA and the Rules notified there under impose an obligation on banking companies, financial institutions and intermediaries of the securities market to verify identity of clients, maintain records and furnish information to the Financial Intelligence Unit – India.

2. Financial Intelligence Unit – India (FIU-IND) has been established as the central national agency responsible for receiving, processing, analyzing and disseminating information relating to suspect financial transactions. FIU-IND is also responsible for coordinating and strengthening efforts of national and international intelligence and enforcement agencies in pursuing the global efforts against money laundering and related crimes. Director, FIU-IND and Director (Enforcement) have been conferred with exclusive and concurrent powers under relevant sections to implement the provisions of the Act.

## **Amendment to the Prevention of Money laundering Act**

3. The Prevention of Money-Laundering (Amendment) Act, 2009 has included ‘Authorized Persons’ and ‘Payment System Operators’ in the category of ‘financial institutions’.

4. “Authorized Person” under the PMLA means ‘authorized person’ as defined in clause (c) of section 2 of the Foreign Exchange Management Act, 1999 (FEMA). As per Section 2 (c) of FEMA, Authorized Person means an Authorized Dealer, money changer, off-shore banking unit or any other person for the time being authorized under sub-section (1) of section 10 of FEMA to deal in foreign exchange or foreign securities. As per RBI circular dated 6.3.2006, Authorized Persons broadly cover four categories of entities – Authorized Dealer - Category I (AD-I), Authorized Dealer- Category II (AD-II), Authorized Dealer – Category III (AD-III) and Full Fledged Money Changers (FFMCs).

5. “Payment System Operator” has been defined under the PMLA as a person who operates a payment system. “Payment system” has been defined to mean a system that enables payment to be effected between a payer and a beneficiary involving clearing, payment or settlement service or all of them and includes the systems enabling credit card operations, debit card operations, smart card operations, money transfer operations or similar operations.

## **Cash Transaction Report**

6. The Prevention of Money laundering Act, 2002 and the Rules thereunder require every banking company to furnish details of the following cash transactions:

(A) All cash transactions of the value of more than rupees ten lakhs or its equivalent in foreign currency.

(B) All series of cash transactions integrally connected to each other which have been valued below rupees ten lakhs or its equivalent in foreign currency where such series of transactions have taken place within a month.
