The data on India's Balance of Payments (BoP) are compiled and published by the Reserve Bank on a quarterly basis with a lag of one quarter. Accordingly, the preliminary data on India's BoP for the Second Quarter (Q2) *i.e.*, July-September 2009 of the financial year 2009-10 along with the partially revised data for the first quarter (Q1) *i.e.*, April-June 2009 and revised data for 2007-08 and 2008-09 were released by the Reserve Bank on December 31, 2009.

As per the revision policy, the data on India's BoP for the previous two years are revised only once in a year when the data of the July-September quarter are published at end-December (i.e., December 31). Accordingly, the data for the financial years 2007-08 and 2008-09 have been revised now. The data for 2007-08 is now final and is frozen, except in extraordinary circumstances in the event of methodological changes in respect of data collection and compilation procedures and/or significant changes indicated by data sources that could cause structural shift in the data series. The data for the financial year 2008-09 is now partially revised. This will be finalized and frozen in December 2010. Data revisions for the previous quarters of the same financial year are also undertaken while compiling data for the current quarter. Accordingly, the revisions of the data on BoP for the first quarter of 2009-10 have been undertaken.

The developments in India's BoP for 2009-10 (April-September) are presented here below.

1. Major Highlights

(i) Growth in exports and imports continued their declining trend during Q2 of 2009-10.

^{*} Prepared in the Division of International Finance, Department of Economic Analysis and Policy, Reserve Bank of India. This article sets out the developments in India's Balance of Payments during the second quarter of 2009-10 (July-September 2009) and also incorporates revisions in data for 2007-08, 2008-09 and First Quarter (April-June 2009) of 2009-10.

- (ii) Trade deficit, however, was lower reflecting larger fall in imports, especially oil imports, on account of lower oil prices as compared to last year.
- (iii) Private transfer receipts continued to be sustained through Q2 of 2009-10. Software services exports, however, were lower.
- (iv) Despite lower trade deficit, current account deficit at US\$ 12.6 billion in Q2 of 2009-10 was almost at the same level as last year, mainly on account of lower net invisibles surplus. During April-September 2009, the current account deficit stood higher at US\$ 18.6 billion.
- (v) Net capital flows were higher during April-September 2009 mainly driven by foreign investment inflows, particularly reflecting the turnaround in FII inflows. NRI deposits also witnessed higher inflows.
- (vi) Higher capital inflows along with the allocations of SDRs by the IMF resulted in an increase in India's foreign

exchange reserves by US\$ 9.5 billion on a BoP basis (*i.e.* excluding valuation) during April-September 2009. Including the valuation changes, the increase in reserves was higher at US\$ 29.3 billion during the same period.

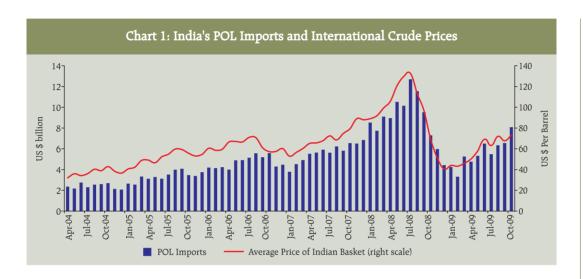

2. Balance of Payments for July-September (Q2) of 2009-10

The major items of the BoP for Q2 of 2009-10 are set out below in Table 1.

Merchandise Trade

- (i) The decline in exports which started since October 2008 continued during the second quarter of 2009-10. On a BoP basis, India's merchandise exports recorded a decline of 21.0 per cent in Q2 of 2009-10 as against an increase of 39.6 per cent in Q2 of 2008-09.
- (ii) Import payments, on a BoP basis, registered a decline of 19.6 per cent in Q2 of 2009-10 as against a higher growth of 54.8 per cent in the corresponding period of last year.

7. Change in Reserves#				
(-Indicates increase; + indicates decrease)	-2,235	-115	4,734	-9,418
*: Including errors and omissions. #: On Bo	oP basis (<i>i.e.</i> excludin	g valuation).		

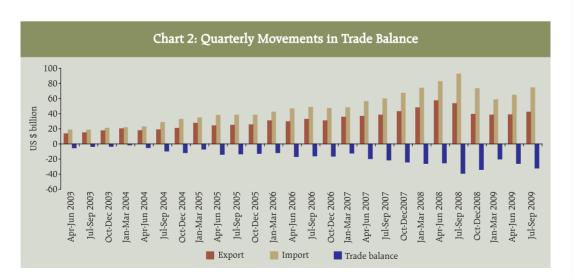

(iii) According to the data released by the Directorate General of Commercial Intelligence and Statistics (DGCI&S), both oil imports and non-oil imports witnessed a decline during Q2 of 2009-10 by 45.7 per cent and 27.5 per cent, respectively. The decline in oil imports was mainly due to significant decline in oil prices to US\$ 67.6 per barrel during Q2 of 2009-10 from its peak of US\$ 132.5 per barrel in July 2008

(Chart 1). Oil imports in Q2 of 2009-10 accounted for about 28.7 per cent of total imports (35.0 per cent in Q2 of 2008-09).

Trade Deficit

(i) Trade deficit on a BoP basis was lower at US\$ 32.2 billion in Q2 of 2009-10 as compared to US\$ 39.1 billion in Q2 of 2008-09 (Chart 2).

Invisibles

- (i) Invisibles receipts, comprising services, current transfers and income, registered a decline of 15.1 per cent in Q2 of 2009-10 (as against a higher growth of 33.1 per cent in Q2 of 2008-09). Major categories of services exports registered a decline during the quarter. Receipts under non-software miscellaneous services including business services, construction and royalties, copy rights and licence fees declined. Private transfers receipts, however, increased by 3.6 per cent during the quarter.
- (ii) Invisible payments recorded a marginal increase during Q2 of 2009-10 mainly on account of payments under business and financial services.
- (iii) Net invisibles (invisibles receipts *minus* invisibles payments) turned out to be lower at US \$ 19.6 billion in Q2 of 2009-10 (US \$ 26.5 billion in Q2 of 2008-09) mainly due to decline in services exports, particularly non-software services receipts (Table 2). At this level, net invisibles surplus financed 60.8 per cent of trade deficit in Q2 of 2009-10 (67.9 per cent in Q2 of 2008-09).

Current Account Deficit

(i) Despite lower trade deficit, current account deficit at US\$ 12.6 billion in Q2 of 2009-10 was almost at the same level as last year, mainly on account of lower net invisibles surplus. The invisibles surplus, however, continued to be driven by private transfers and software exports.

Capital Account and Reserves

- (i) Both gross capital inflows and outflows remained strong during Q2 of 2009-10. The gross capital inflows to India during Q2 of 2009-10 amounted to US \$ 98.1 billion (US \$ 90.0 billion in Q2 of 2008-09) mainly on account of higher foreign investment inflows of US\$ 55.8 billion.
- (ii) Net capital flows were also substantially higher at US \$ 23.6 billion in Q2 of 2009-10 than that of US \$ 7.1 billion in Q2 of 2008-09 mainly due to large net foreign investment inflows and SDR allocations by the IMF during the quarter (Table 3).
- (iii) Foreign Direct Investment (FDI) broadly comprise equity, reinvested earnings and inter-corporate loans. Net FDI flows (net inward FDI *minus* net outward FDI) were higher at US \$ 7.1 billion in Q2 of 2009-10 as compared

- with US \$ 4.9 billion in Q2 of 2008-09. Net inward FDI remained buoyant at US \$ 11.3 billion during Q2 of 2009-10 (US \$ 8.8 billion in Q2 of 2008-09) reflecting relatively better growth prospects of the Indian economy. Net outward FDI amounted to US \$ 4.2 billion in Q2 of 2009-10 (US \$ 3.9 billion in Q2 of 2008-09).
- (iv) Portfolio investment primarily comprising foreign institutional investors' (FIIs) investments and American Depository Receipts (ADRs)/ Global Depository Receipts (GDRs) continued their strong upward trend to record a net inflow of US \$ 9.7 billion in Q2 of 2009-10 (as against net outflows of US \$ 1.3 billion in Q2 of 2008-09) mainly due to revival of FII inflows since the Q1 of 2009-10. Inflows under portfolio investment were led by large purchases of equities

P: Preliminary. PR: Partially Revised. *: SI	R allocations are in	cluded.				

- (amounting to US\$ 7.0 billion during Q2 of 2009-10) by FIIs in the Indian stock market and revival in net inflows under ADRs/GDRs due to growth of stock prices of Indian companies.
- (v) According to the guidelines given in the Sixth Edition of the Balance of Payments Manual (BPM6) of the International Monetary Fund (IMF), allocations under Special Drawing Rights (SDR) are treated as liabilities to nonresidents (foreign liabilities) and reported as liabilities under other investments of the financial account of the balance of payments. Accordingly, a general allocation of SDRs 3,082.5 million on August 28, 2009 and a special allocation of SDRs 214.6 million together amounting to US\$ 5.2 billion is included in the 'other capital' of the capital account of the balance of payments for O2 of 2009-10. The allocations have a debit entry in the reserve assets of the balance of payments showing an equal amount of increase in the foreign exchange reserves.
- (vi) Foreign exchange reserves, on BoP basis (*i.e.*, excluding valuation) have shown an accretion of US \$ 9.4 billion in Q2 of 2009-10 as against a decline in reserves of US \$ 4.7 billion in Q2 of 2008-09. The increase in the reserves was mainly due to large capital inflows and SDR allocations by the IMF.

3. Balance of Payments for April-September 2009

(i) As alluded to earlier, taking into account the partially revised data for Q1 of 2009-10 and the preliminary data for Q2 of 2009-10, the BoP data for the first half of the financial year 2009-10 (April-September) have been compiled. While the detailed data are set out in Statement I in standard format of BoP presentation, the major items are presented in Table 4.

Merchandise Trade

(i) On a BoP basis, India's merchandise exports posted a decline of 27.0 per

- cent in April-September 2009 (as against a growth of 48.1 per cent in the corresponding period of the previous year).
- (ii) Import payments, on a BoP basis, declined by 20.6 per cent during April-September 2009 as against a sharp increase of 51.0 per cent in the corresponding period of the previous year. The decline in imports is mainly attributed to the base effect and decline in oil prices.
- (iii) According to the DGCI&S data, oil imports recorded a decline of 45.0 per cent in April-September 2009 as against a significant rise of 83 per cent during April-September 2008. During the same period, non-oil imports showed a relatively modest decline of 26.3 per cent (as against an increase of 43.8 per cent in April-September 2008). In absolute terms, the oil imports accounted for about 26 per cent of total imports during April-September 2009 (34.2 per cent in the corresponding period of the previous year).
- (iv) According to the data released by the Gems & Jewellery Export Promotion Council, total import of gems and jewellery declined by 12 per cent during April-September 2009 as against an increase of 33.6 per cent during the corresponding period of last year.

Trade Deficit

(i) On a BoP basis, the merchandise trade deficit remained lower at US \$ 58.2 billion during April-September 2009 as compared with US \$ 64.4 billion in April-September 2008 mainly on account of decline in oil imports (Chart 2).

Invisibles

Invisibles Receipts

- (i) Invisibles receipts recorded a decline of 11.6 per cent during April-September 2009 as compared with an increase of 32.5 per cent in the corresponding period of the previous year, mainly attributed to the lower receipts under almost all components of services (Table 5 and Chart 3). However, the private transfers receipts, which had marginally declined during the second half of 2008-09, increased by 4.3 per cent in the first half of 2009-10.
- (ii) Private transfers are mainly in the form of (i) Inward remittances from Indian workers abroad for family maintenance, (ii) Local withdrawal from Non-Resident Indian Rupee deposits, (iii) Gold and silver brought through passenger baggage, and (iv) Personal gifts/donations to charitable/ religious institutions.
- (iii) Private transfer receipts, comprising mainly remittances from Indians working overseas, increased to US \$ 27.5 billion in April-September 2009 as compared with US \$ 26.4 billion in the corresponding period of the previous year. Private transfer receipts constituted 17.6 per cent of current receipts in April-September 2009 (13.4 per cent in the corresponding period of the previous year).
- (iv) NRI deposits, when withdrawn domestically, form part of private transfers because once withdrawn for local use these become unilateral transfers and do not have any *quid pro quo*. Such local withdrawals/

redemptions from NRI deposits cease to exist as liability in the capital account of the balance of payments and assume the form of private transfers, which is included in the current account of balance of payments.

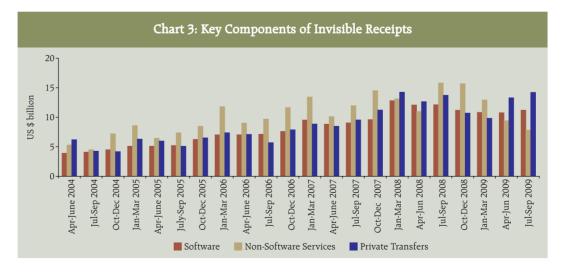

Table 6: Inflows, Outflows and Local Withdrawals under NRI Deposits

(US\$ million) Year Inflows Outflows Local Withdrawals 2 3 2007-08 (R) 29,400 29.222 18.919 2008-09 (PR) 37,147 32,858 20,617 April-September 17 202 11 168 2008 (PR) 18.274 April-September 2009 (P) 21,513 18,649 11,818 PR: Partially Revised. R: Revised. P: Preliminary.

- (v) Under the NRI deposits, both inflows as well as outflows remained steady in the recent past. A major part of outflows from NRI deposits is in the form of local withdrawals. These withdrawals, however, are not actually repatriated but are utilised domestically. During April-September 2009, the share of local withdrawals in total outflows from NRI deposits was 63.4 per cent as compared with 64.9 per cent in April-September 2008 (Table 6).
- (vi) Under Private transfers, the inward remittances for family maintenance accounted for 53.3 per cent of the total

- private transfer receipts, while local withdrawals accounted for 43.0 per cent in April-September 2009 as against 52.6 per cent and 42.3 per cent, respectively, in April-September 2008 (Table 7).
- (vii) Software receipts at US \$ 21.4 billion in April-September 2009 showed a decline of 11.5 per cent as against a higher growth of 35.3 per cent in April-September 2008.
- (viii) Miscellaneous receipts, excluding software exports, stood at US \$ 7.8 billion in April-September 2009 (US \$ 14.9 billion in April-September 2008). Receipts under non-software miscellaneous services like business services, construction and royalties, copy rights and licence fees declined. The break-up of these data is presented in Table 8.
- (ix) The key components of the business services receipts and payments were mainly the trade related services, business and management consultancy services, architectural, engineering and other technical services and services

relating to maintenance of offices (Table 9). Under business services, receipts of architectural, engineering and other technical services, maintenance of offices abroad and business and management consultancy services declined significantly while

payments related to these services rose moderately resulting in net outgo under these services.

(x) Investment income receipts amounted to US \$ 7.3 billion in April-September 2009 and remained almost at same level of last year.

Invisibles Payments

- (i) Invisibles payments have also shown a decline of 2.6 per cent in April-September 2009 (an increase of 15.0 per cent in April-September 2008). The invisibles payments declined mainly due to lower payment towards travel, transportation, non-software services and private transfers.
- (ii) Lower transportation payments in April-September of 2009 (a decline of 29.4 per cent) mainly reflected the lower volume of imports. In addition, lower payments may also be attributed to the lower freight rates on international shipping as compared to corresponding period of last year.
- (iii) Investment income payments, reflecting mainly the interest payments on commercial borrowings, external assistance, non-resident deposits, and reinvested earnings of the Foreign Direct Investment (FDI) enterprises

operating in India, amounted to US \$ 9.4 billion in April-September 2009 higher than that of April-September 2008 (Table 10). The increase in investment income payments was mainly due to rise in reinvestment earnings of the FDI companies.

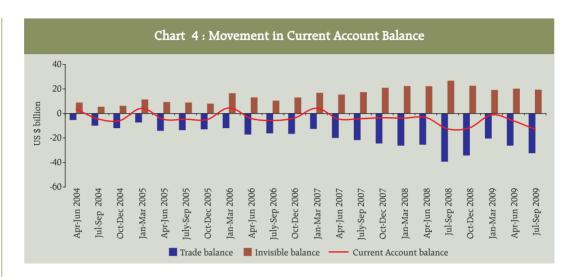

Invisibles Balance

(i) Net invisibles (invisibles receipts minus invisibles payments) stood lower at US \$ 39.6 billion during April-September of 2009 as compared to US\$ 48.5 billion during April-September 2008. At this level, the invisibles surplus financed about 68.0 per cent of trade deficit during April-September 2009 as against 75.4 per cent during April-September 2008.

Current Account Deficit

(i) Despite lower trade deficits, current account deficit increased to US \$ 18.6 billion in April-September 2009 from

- \$ 12.0 billion in April-September 2008. Under net capital flows, all the components except loans and banking capital, showed improvement during April-September 2009 from their level in the corresponding period of the previous year (Table 12). In banking capital, net inflows under non-residents' deposit remained higher during April-September 2009 as compared to their level last year.
- (iii) Net inward FDI into India remained buoyant at US \$ 21.0 billion during April-September 2009 (US \$ 20.7 billion in April-September 2008) reflecting the continuing liberalisation and better growth performance of the Indian economy. During this period, FDI was channeled mainly into manufacturing (21.4 per cent) followed by communication services (12.8 per cent) and real estate sector (12.6 per cent).
- Net outward FDI of India at US \$ 6.8 billion in April-September 2009 remained almost at the same level of the corresponding period of the last year. Due to large inward FDI, the net FDI (inward FDI minus outward FDI) was marginally higher at US\$ 14.1 billion in April-September 2009.
- (iv) Portfolio investment mainly comprising Foreign Institutional Investors (FIIs) investments and American Depository Receipts (ADRs)/Global Depository Receipts (GDRs) witnessed large net inflows (US \$ 17.9 billion) in April-September 2009 (net outflows of US \$ 5.5 billion in April-September 2008) due to large purchases by FIIs in the Indian capital market reflecting revival in growth prospects of the economy and improvement in global investors' sentiment. The inflows under ADRs/GDRs increased to US \$ 2.7 billion in

- April-September 2009 (US \$ 1.1 billion in April-September 2008).
- (v) Net External Commercial Borrowings
 (ECBs) inflow remained lower at US \$
 0.7 billion in April-September 2009 (US \$ 3.2 billion in April-September 2008).
- (vi) Banking capital (net) amounted to US \$ 1.1 billion in April-September 2009 as compared with US \$ 5.0 billion in April-September 2008. Among the components of banking capital, NRI deposits witnessed higher net inflows of US \$ 2.9 billion in April-September 2009 as compared with lower net inflows of US \$ 1.1 billion in April-September 2008.
- (vii) Short term trade credit recorded a net outflow of US \$ 0.6 billion (inclusive of suppliers' credit up to 180 days) during April-September 2009 as against a net inflow of US \$ 4.9 billion during the same period of the previous year.
- (viii) Other capital includes leads and lags in exports, SDR allocation, funds held abroad, advances received pending issue of shares under FDI and other capital not included elsewhere (n.i.e).

Other capital recorded a lower net outflow of US \$ 4.3 billion in April-September 2009 as compared with a higher net outflow of US\$ 10.3 billion in April-September 2008. The details of other capital are set out in Table 13.

4. Reserves Variation

- (i) The accretion in foreign exchange reserves on BoP basis (*i.e.*, excluding valuation) was US \$ 9.5 billion in April-September 2009 (as against a decline of US \$ 2.5 billion in April-September 2008) (Table 14 and Chart 5). Taking into account the valuation gain, foreign exchange reserves recorded an increase of US \$ 29.3 billion in April-September 2009 (as against a decline in reserves of US \$ 23.4 billion in April-September 2008 (Annex A).
- (ii) The IMF had approved a general allocation of Special Drawing Rights (SDRs) for an amount equivalent to US\$ 250 billion, which was made on August 28, 2009. In addition, a special SDR allocation pursuant to the fourth amendment of the IMF's Articles of Agreement, amounting to US \$33

billion was made on September 9, 2009. Pursuant to this, a general allocation of SDR 3,082 million (equivalent to US\$ 4,821 million) and a special allocation of SDR 214.6 million (equivalent to US\$ 340 million) were allocated to India by the IMF on August 28, 2009 and September 9, 2009, respectively. It has resulted in an increase in India's foreign exchange reserves by US\$ 5.2 billion.

- (iii) At the end of September 2009, outstanding foreign exchange reserves stood at US \$ 281.3 billion.
- (iv) To sum up, the key features of India's BoP that emerged in April-September 2009 were: (i) lower trade deficit (US \$ 58.2 billion) led by lower oil import bills, (ii) lower net invisibles surplus (US \$ 39.6 billion) led by lower software services and decline in business

services and investment income, (iii) higher current account deficit (US \$ 18.6 billion) due to lower net invisibles, (iv) large net capital inflows mainly led by turnaround in FII inflows and steady FDI inflows, and (v) increase in reserves (excluding valuation) of US \$ 9.5 billion (as against a decline in reserves of US\$ 2.5 billion in April-September 2008) due to large capital inflows and SDRs allocations by the IMF. The details of key indicators are set out in Table 15.

Annex A: Sources of Variation in Foreign Exchange Reserves in India: April-September 2009-10

During April-September 2009, there was an accretion to foreign exchange reserves mainly on account of valuation changes. Also, inflows under foreign investments and Non-Resident Indian deposits and SDR allocations by the IMF have contributed to the increase in foreign exchange reserves during April-September 2009. The sources of variation in the foreign exchange reserves are set out in Table A1.

The foreign exchange reserves (including the valuation effects) increased by US\$ 29,293 million during April-September 2009 as against a decline of US\$ 23,387 million during April-September 2008 (Table A 2).

On balance of payments basis (i.e., excluding valuation effects), the foreign exchange reserves increased by US\$ 9,533 million during April-September 2009 as against a decline of US\$ 2,499 million during April-September 2008. The valuation gain, reflecting the depreciation of the US dollar against the major currencies, accounted for US\$ 19,760 million during April-September 2009 as compared with a valuation loss of US\$ 20,888 million during April-September 2008. Accordingly, valuation gain during April-September 2009 accounts for 67.5 per cent of the total increase in foreign exchange reserves.

The IMF made additional allocations of SDRs to India in two tranches viz., general allocation of SDR 3,082 million (equivalent to US\$ 4,821 million) on August 28, 2009 and a special allocation of SDR 214.6 million (equivalent to US\$
