The Chief Executives of all Scheduled Commercial
Banks (Excluding RRBs & Local Area Banks)

Dear Sir,

Master Circular-Interest Rates on Advances

Please refer to the Master Circular DBOD.No.Dir.BC.6/13.07.01./2001-2002 dated 9th August 2001 consolidating instructions/guidelines issued to banks till 30 June 2001 on matters relating to Interest Rates on Advances. The Master Circular has been suitably updated by incorporating instructions issued till date and has also been placed on the RBI website (<http://www.rbi.org.in>).

2. It may be noted that all the instructions contained in circulars listed in the Appendix have been consolidated.

Yours faithfully

(M.R. Srinivasan)
Chief General Manager

Master Circular on Interest Rates on Advances

1. General

1.1 The banks should charge interest on loans/advances/cash credits/overdrafts or any other financial accommodation granted/provided/renewed by them or discount usance bills in accordance with the directives on interest rates on advances issued by Reserve Bank of India from time to time.

1.2 The interest at the specified rates shall be charged at monthly rests from April 1, 2002 subject to the conditions laid down in para 10 below. The Interest to be charged shall be rounded off to the nearest rupee.

1.3 Banks should club the term loans and working capital advances together for the purpose of determining the size of the loan and the applicable rate of interest.

1.4 The schedule of rates of interest as per current directive in force are given in Annexure-I.

2. Prime Lending Rate (PLR)

2.1 At present, loans upto Rs. 2 lakh carry the prescription of not exceeding the Prime Lending Rate (PLR) and on the loans above Rs. 2 lakh, banks are free to determine rate of interest subject to PLR and spread guidelines. Keeping in view the international practice and to provide further operational flexibility to commercial banks in deciding their lending rates, it has been decided to relax the requirement of PLR being the floor rate for loans above Rs. 2 lakh. Banks may now offer loans at below PLR rates to exporters or other creditworthy borrowers including public enterprises on the lines of a transparent and objective policy approved by the respective Boards. Banks will continue to declare the maximum spread of interest rates over PLR. However, given the prevailing credit market in India and the need to continue with concessionality for small borrowers, the practice of treating PLR as the ceiling for loans upto Rs. 2 lakh will continue.

Separate PLRs may be fixed for short term credit and Prime Term Lending Rate (PTLR) for term loans of 3 years and above. The PLR/PTLR fixed should be declared and should also indicate the maximum spread over the PLR for all advances other than consumer credit. The banks could also prescribe separate PLRs for loan component and cash credit component and also prescribe separate spreads for both.

2.2 The interest rate on credit limits of Rs. 2 lakh and below, other than consumer credit, shall not exceed the Prime Lending Rate which is available to the best borrowers of the concerned bank.

2.3 PLR will be made uniformly applicable at all branches of a bank.

3. Freedom to fix Lending Rates

Banks enjoy freedom to stipulate lending rates without reference to their own Prime Lending Rates in respect of the following categories:

- (i) Loans covered by refinance schemes of term lending institutions;
- (ii) Interest rates on bank lending to intermediary agencies including housing finance intermediary agencies (cf. list at 'Annexure II');
- (iii) Bill discounting by banks;
- (iv) Advances/overdrafts against domestic/NRE/FCNR(B) deposits with the bank, provided that the deposit/s stands/stand either in the name(s) of the borrower himself/borrowers themselves, or in the names of the borrower jointly with another person;
- (v) To a co-operative bank or to any other banking institution;
- (vi) To its own employees.

4. Tenor Linked PLRs

Banks have been given freedom to operate different PLRs for different maturities, provided the transparency and uniformity of treatment is maintained. Banks should not declare stand-alone PLR in addition to tenor linked PLRs. The banks, which have moved over to declaration of tenor-linked PLRs should invariably indicate the specific tenor for which the declared PLR is applicable.

5. Fixed Interest Rate for Loans

Banks have freedom to offer all categories of loans on fixed or floating rates, subject to conformity to Asset-Liability Management (ALM) guidelines. However, the banks should ensure that the PLR stipulations as applicable are complied with. The nature of alignment with PLR i.e. whether it is at the time of sanction or disbursement of the loan, should be made explicit at the time of sanction of the loan. For small loans up to Rs. 2 lakh, the stipulation of 'not exceeding PLR' (for relevant maturity) should be made applicable.

6. Levying of penal rates of interest

Since the Boards of the banks have been empowered to decide the Prime Lending Rate (PLR) as also the spread over PLR, it has been decided with effect from 10 October 2000, that banks may formulate transparent policy for charging penal interest with the approval of their Board of Directors. Penal interest may be levied for reasons such as default in repayment, non-submission of financial statements, etc. However, the policy on penal interest should be governed by well accepted principles of transparency, fairness, incentive to service the debt and due regard to genuine difficulties of customers.

7. Enabling clause

7.1 The banks are required to invariably incorporate following proviso in the loan agreements in the case of all advances, including term loans, enabling banks to charge the applicable interest rate in conformity with the directives issued by RBI from time to time.

“Provided that the interest payable by the borrower shall be subject to the changes in interest rates made by the Reserve Bank from time to time.”

7.2 Since banks are bound by the Reserve Bank's directive on interest rates on loans and advances which are issued under Sections 21 and 35A of the Banking Regulation Act, 1949, banks are obliged to give effect to any revision of interest rates whether upwards or

downwards, on all the existing advances from the date the directive/revised interest rate (change in PLR and spread) come into force, unless the directives specifically provide otherwise.

7.3 Paragraphs 7.1 and 7.2 will not be applicable in case of Fixed Rate Loans.

8. Withdrawals against uncleared effects

Where withdrawals are allowed against cheques sent for clearing, i.e. uncleared effects (e.g. uncleared local or outstation cheques) which are in the nature of unsecured advances, the banks should charge interest on such draws as per the directive on interest rate on advances.

It may be noted that this instruction will not apply to the facility afforded to depositors for immediate credits in respect of cheques sent for collection as a measure of customer service.

9. Loans under consortium arrangement.

The banks need not charge a uniform rate of interest even under a consortium arrangement. Each member bank should charge rate of interest on the portion of the credit limits extended by it to the borrower subject to its PLR.

10. Charging of Interest at monthly rests

The banks are required to switchover to the system of charging interest at monthly rests with effect from April 1, 2002. While switching over to the new system the banks are to follow the under noted instructions in regard to switchover to the system of charging monthly interest on loans and advances:

- (i) Banks have option to compound interest at monthly rests effective either from April 1, 2002, or July 1, 2002 or April 1, 2003.
- (ii) With effect from quarter beginning July 1, 2002, banks should ensure that the effective rate does not go up merely on account of the switchover to the system of charging / compounding interest at monthly rests and increase the burden on the borrowers.

Illustratively:

If a bank is charging in a borrower's account an interest rate of 12 percent with quarterly rests, the effective rate is 12.55 percent. If the bank charges in the same account an interest rate of 12 percent at monthly rests, the effective rate comes to 12.68 percent. Banks should, therefore, adjust the 12 percent interest rate charged to the borrower in such a way that the effective interest rate to the borrower does not exceed 12.55 percent as hitherto. Thus, in the above example, banks should charge interest at 11.88 percent (and not 12 percent). If this is done, the effective rate, even after compounding at monthly rests will be 12.55 percent.

- (iii) Application of interest on monthly rests shall be restricted to all running accounts, e.g. Cash Credit, Overdraft, Export Packing Credit Accounts, etc. At the time of changing

over to monthly rests, banks may obtain consent letter / supplemental agreement from the borrowers for the purpose of documentation.

- (iv) Interest at monthly rests shall be applied in case of all new and existing term loans and other loans of longer / fixed tenor. In the case of existing loans of longer / fixed tenor, banks shall move over to application of interest at monthly rests at the time of review of terms and conditions or renewal of such loan accounts or after obtaining consent from the borrower.
- (v) Since instructions contained in paragraph 10 (ii) are effective from July 1, 2002, in case a bank had followed a different system from one explained therein in the quarter ended June 30, 2002, it is not required to make adjustment for that quarter.

10.2 Instructions on charging interest at monthly rests shall not be applicable to agricultural advances and banks shall continue to follow the existing practice of charging / compounding of interest on agricultural advances linked to crop seasons. As indicated in circular RPCD.No.PLFS.BC.129/ 05.02.27/97-98 dated June 29, 1998 banks should charge interest on agricultural advances for long duration crops at annual rests. As regards other agricultural advances in respect of short duration crop and allied agricultural activities such as dairy, fishery, piggery, poultry, bee-keeping, etc., banks may take into consideration due dates fixed on the basis of fluidity with borrowers and harvesting / marketing season while charging interest and compounding the same if the loan / instalment becomes overdue.
