

Risk vs Return

Do you think you can become rich overnight?

Do you think you can earn very high returns in a short period of time?

Think carefully because high expected returns involve high risk taking.

Basic Principle

The basic investment principle to be kept in mind while investing or saving in financial products is the risk return tradeoff. High expected returns entail higher risk and the possibility of potential losses.

Due Diligence

One must do proper due diligence before getting lured by schemes of unregulated entities promising high or guaranteed returns in a short period of time. Such schemes may be frauds and promoters may vanish after collecting your hard earned money.

Sachet portal

Visit www.sachet.rbi.org.in to report information or complaint against any entity which has defaulted in repayment of deposits or money collected under any scheme.

Are bank deposits safe?

Deposits with banks are safe as banks are regulated and supervised by the RBI and there is a system of grievance redress through the Banking Ombudsman Scheme.

Deposit Guarantee

Deposits with banks are guaranteed by the Deposit Insurance and Credit Guarantee Corporation to the extent of ₹ One lakh per customer per bank.
