### Services and Infrastructure Outlook Survey for Q3:2024-25

Today, the Reserve Bank released the results of 43<sup>rd</sup> round of its quarterly Services and Infrastructure Outlook Survey (SIOS) conducted during Q3:2024-25. This forward-looking survey¹ captures qualitative assessment and expectations of Indian companies engaged in the services and infrastructure sectors on a set of business parameters relating to demand conditions, price situation and other business conditions. In the latest round of the survey², 965 companies provided their assessment for Q3:2024-25 and expectations for Q4:2024-25 as well as outlook on key parameters for the subsequent two quarters.

## **Highlights:**

## A. Services Sector

#### Assessment for Q3:2024-25

- Firms assessed improvement in overall business situation, employment conditions and their turnover during Q3:2024-25 (<u>Chart 1</u> and <u>Table A</u>).
- Pressures from input costs, salary outgo and cost of finance are gauged to have risen during the quarter.
- Services firms reflected better pricing power, as measured in terms of selling prices and profit margins.

#### **Expectations for Q4:2024-25**

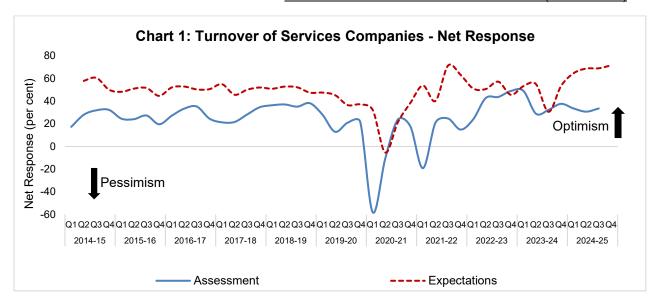

- Outlook on demand condition in the services sector remains very positive with further improvements expected in overall business situation, turnover and job landscape (<u>Chart 1</u> and <u>Table A</u>).
- Responding firms expect cost pressures to increase; they also polled for higher growth in selling prices and profit margins.

#### Expectations for Q1:2025-26 and Q2:2025-26

- Respondents remain optimistic on business conditions in the services sector during H1:2025-26. (<u>Table C</u>).
- Input cost pressures are likely to persist, and selling prices are expected to rise in consonance.

<sup>&</sup>lt;sup>1</sup> The survey results reflect the respondents' views, which are not necessarily shared by the Reserve Bank.

<sup>&</sup>lt;sup>2</sup> Results of the previous survey round were released on the Bank's website on October 09, 2024.

 Respondents reported that with their existing resources they could have provided 10.6 per cent additional services during Q2:2024-25 (<u>Table S14</u>).

## **B.** Infrastructure Sector

## Assessment for Q3:2024-25

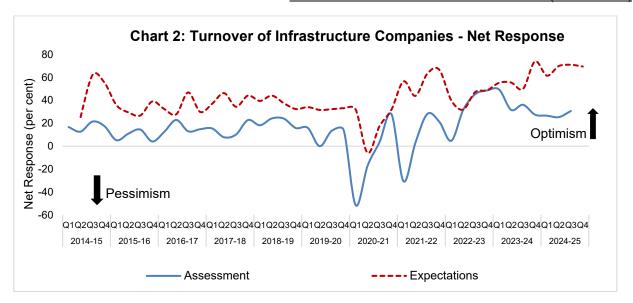

- Respondents assessed improvement on overall business situation, turnover and employment, both full-time and part-time (<u>Chart 2</u> and <u>Table B</u>).
- Cost pressures in infrastructure sector are weighed to have risen with associated rise in selling prices and profit margins *vis-à-vis* the previous quarter.

#### **Expectations for Q4:2024-25**

- Optimism of infrastructure companies on overall business situation and turnover stood a tad lower from that in the previous quarter (<u>Chart 2</u> and <u>Table B</u>).
- Responding firms expect improvement in employment conditions.
- Cost pressures are expected to continue in Q4:2024-25, but associated rise in selling prices supports optimism on profit margins.

#### Expectations for Q1:2025-26 and Q2:2025-26

- Infrastructure companies remain optimistic on demand conditions till Q2:2025-26 (Table D).
- Majority of respondents expect further rise in input cost pressures and concomitant rise in selling prices during H1:2025-26.

 $<sup>^3</sup>$  Net Response (NR) is the difference between the percentage of respondents reporting optimism and those reporting pessimism. It ranges between -100 to 100. Positive value indicates expansion/optimism and negative value indicates contraction/pessimism. In other words, NR = (I – D); where, I is the percentage response of 'Increase/optimism', D is the percentage response of 'Decrease/pessimism' and E is the percentage response as 'no change/ equal' (*i.e.*, I+D+E=100). For example, increase in turnover is optimism whereas decrease in cost of inputs is optimism.
